

## The Eco Strategy 2030

As a result of our materiality analysis, we have identified the NTT Group's key environmental issues to be climate change, energy (electricity), resources, and ecosystems. Related to these important issues, we have set "The Eco Strategy 2030" as the targets of the environmental activities of fiscal 2030.

 <b>Realizing a Low Carbon Future</b>	<b>We will contribute to reducing the CO<sub>2</sub> emissions of society by at least 10 times more than the NTT Group's own emissions.</b>
	<b>We will raise power efficiency per data transmission in our telecommunications businesses by at least 10 times compared to fiscal 2014 levels.</b>
	<b>We will play our part in adapting to climate change by actively promoting initiatives through all our activities and by collaborating with our stakeholders.</b>
 <b>Implementing Closed Loop Recycling</b>	<b>We will achieve zero emissions* with regard to the final disposal rate for waste discharged from the NTT Group.</b>
 <b>Planning a Future of Natural Harmony</b>	<b>We will play our part in preserving ecosystems by actively promoting initiatives through all our activities and by collaborating with our stakeholders.</b>

\* Zero emissions: The NTT Group considers a final disposal rate of 1% or less to satisfy zero emissions conditions.

### Information Disclosure in Response to TCFD Recommendations

We declared our support for the TCFD in May 2020 as part of our effort to promote ESG management, one of the pillars of our medium-term management strategy. We will be disclosing information related to climate change according to the TCFD recommendations.

### Content and Location of Information Disclosed in Line with TCFD Recommendations

Outline of TCFD Recommendations		Location of Information
Governance: Disclose the organization's governance around climate-related risks and opportunities		
a	Board-level oversight of climate-related risks and opportunities	pages 010, 035, 041, 105
b	Role of senior executives in assessing and managing climate-related risks and opportunities	pages 035, 041
Strategy: Disclose the actual and potential impacts of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning where such information is financially material		
a	Short-, medium-, and long-term climate-related risks and opportunities identified by the organization	pages 031, 041-044
b	Impact of climate-related risks and opportunities on the organization's operations, strategies, and financial plans	pages 031, 041-044
c	Resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario	pages 031, 041-044
Risk Management: Disclose how the organization identifies, assesses, and manages climate-related risks		
a	Process adopted by the organization to identify and assess climate-related risks	pages 035, 039, 041
b	Process adopted by the organization to manage climate-related risks	pages 035, 039, 041
c	How the process for identifying, assessing and managing climate-related risks is integrated into the organization's overall risk management	pages 041, 103
Metrics and Targets: Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities where such information is material		
a	Metrics used by the organization for assessing climate-related risks and opportunities in line with the organization's own strategy and risk management process	pages 030, 034
b	Scope 1, Scope 2, and, if appropriate, Scope 3 greenhouse gas (GHG) emissions, and the related risks	pages 040-041, 049-050
c	Targets used by the organization to manage climate-related risks and opportunities, and performance against targets	pages 030, 034, 040
