

# **IR Presentation**

This document is a translation of the Japanese original. The Japanese original is authoritative.

The forward-looking statements and projected figures concerning the future performance of NTT and its subsidiaries and affiliates contained or referred to herein are based on a series of assumptions, projections, estimates, judgments and beliefs of the management of NTT in light of information currently available to it regarding NTT and its subsidiaries and affiliates, the economy and telecommunications industry in Japan and overseas, and other factors. These projections and estimates may be affected by the future business operations of NTT and its subsidiaries and affiliates, the state of the economy in Japan and abroad, possible fluctuations in the securities markets, the pricing of services, the effects of competition, the performance of new products, services and new businesses, changes to laws and regulations affecting the telecommunications industry in Japan and elsewhere, other changes in circumstances that could cause actual results to differ materially from the forecasts contained or referred to herein, as well as other risks included in NTT's most recent Annual Securities Report and in any other materials publicly disclosed by NTT on its website.

- \* "E" in this material represents that the figure is a plan or projection for operation.
- \*\* "FY" in this material indicates the fiscal year ending March 31 of the succeeding year.

FY2024

FY2025

FY2027

# **Integrated ICT Business**

# **FY2024 Results overview**

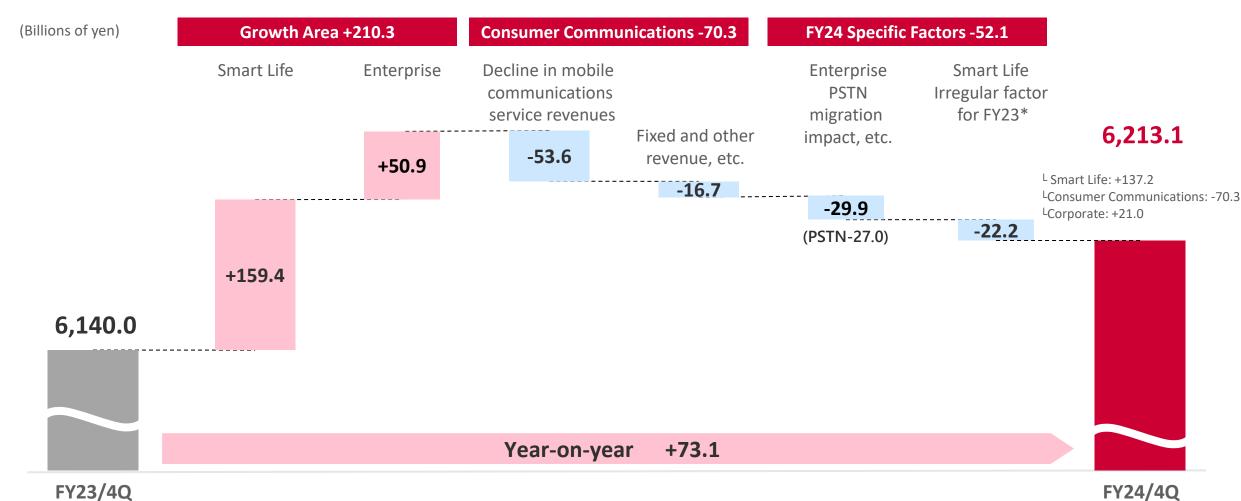

Revenue increased, but profit decreased due to increased cost for customer base and communication quality.

(Billions of yen)	FY2023	FY2024	Year-on-year		FY2024 full-year
(Billions of yell)	Full year	Full year	Changes	%	guidance
<b>Operating Revenues</b>	6,140.0	6,213.1	+73.1	+1.2%	6,244
<b>Operating Profit</b>	1,144.4	1,020.5	-123.9	-10.8%	1,170
EBITDA	1,867.8	1,760.6	-107.3	-5.7%	1,891
Profit attributable to shareholders					
Net income	795.1	718.5	-76.6	-9.6%	799
Capital Expenditures	705.4	714.3	+8.9	+1.3%	749

# **Changes in operating revenues**

Sales increased driven by organic growth in Smart Life and Enterprise.

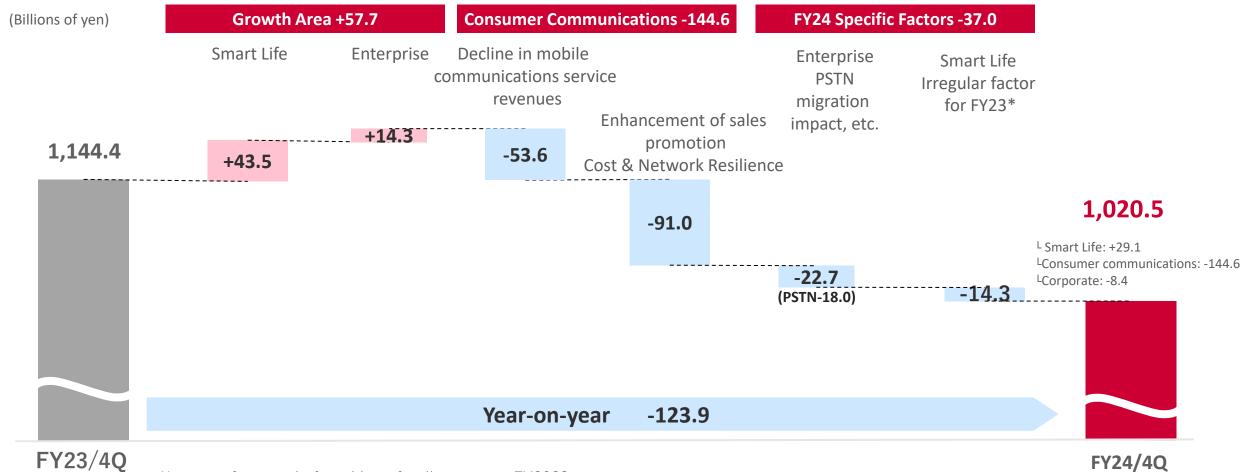

\*Impact of reduced "MyNa Point" revenues in FY2023.

# **Changes in operating profit**

While profits increased in growth areas, costs were concentrated in priority initiatives. Momentum improved with MNP becoming positive in the second half, ARPU trending upward, and improved communication service quality.

\*Impact of reversal of card benefit allowance in FY2023.

# **FY2025 Guidance**

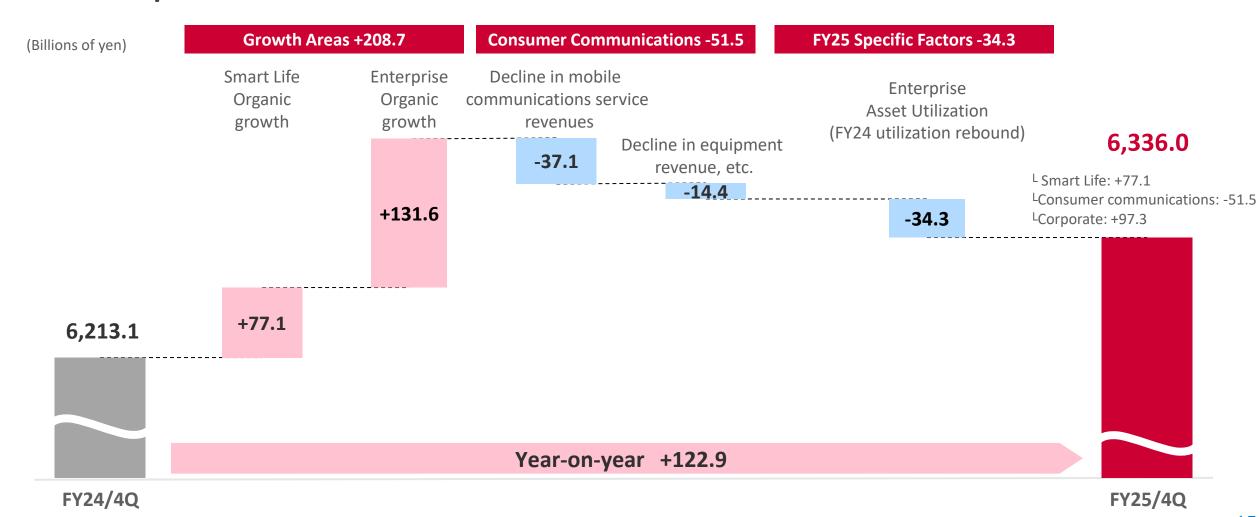

Although sales increased due to the acceleration of organic growth, Profit declined due to continuation of upfront investments for future growth and measures to reduce the burden in subsequent years.

(Billions of yen)	FY2024	FY2025	Year-on-year	
(BIIIIOIIS OI YEII)	Full year	Full year	Changes	%
<b>Operating Revenues</b>	6,213.1	6,336	+122.9	+2.0%
<b>Operating Profit</b>	1,020.5	966	-54.5	-5.3%
EBITDA	1,760.6	1,746	-14.6	-0.8%
Profit attributable to shareholders				
Net income	718.5	669	-49.5	-6.9%
Capital Expenditures	714.3	875	+160.7	+22.5%

# **Operating Revenues Forecast**

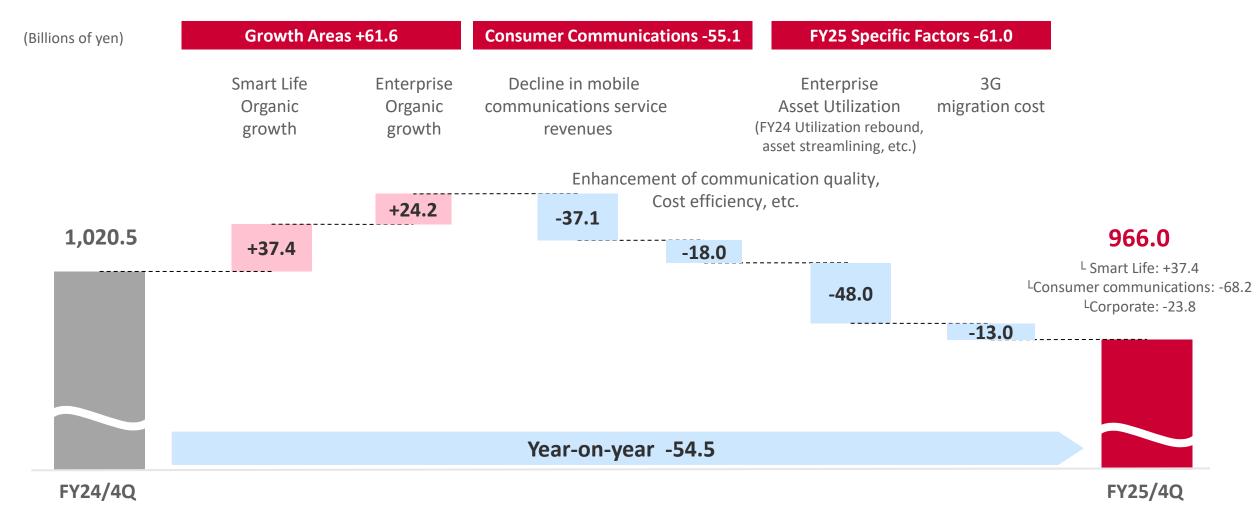

Revenues are expected to increase, driven by growth in finance of Smart Life and Enterprise solutions.

# **Operating Profit Forecast**

Offset the decline in Consumer Communications profits by strong growth in Growth Areas. Striving to further improve momentum in FY25.

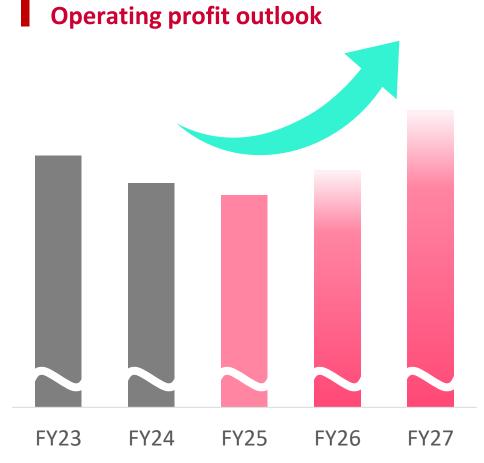

# **Toward Medium-Term Growth**

FY25 positioned as a year of transformation for future growth, leading to significant profit expansion in FY26 and beyond.

Transformation agenda and YOY profit change (conceptual)

		FY25	FY26	FY27	
N	Narketing strategy reform				
	Mobile communications services revenues		<b>&gt;</b>		
	Profit contribution from improved acquisition efficiency	<b>&gt;</b>			
N	Network structural reform				
	Profit contribution from cost efficiency improvement	•	<b>=</b>		
S	Smart Life/Enterprise organic growth				
	Revenue growth				

# **Consumer Business Strategy**

Expand customer base and revenues by creating value that can be chosen by customers.

## **Marketing strategy reform**

Value possessed by various partners

Create new value that can be chosen by customers

Value uniquely provided by DOCOMO

FJE MAX FJEポイ活 MAX

Appeal value using partner x DOCOMO channels

Value provision blending physical & digital

Promote usage of

Expansion of marketing solutions

Further expand customer base and increase communication/Smart Life revenues

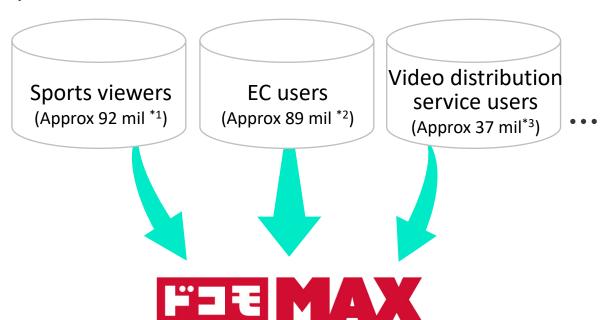

# <Consumer> Aims of "DOCOMO MAX"

Deliver value in a wide range of genres in addition to sports, e-commerce and video distributions services, thereby expanding the customer base and ARPU.

Planned for launch on June 5

Expand the support from the broad user base of sports, e-commerce and video distribution services

#### **Future** evolution

Expand the scope of value proposition, and attract customer segments with diverse interests

Movie/drama

Expand value and attract diverse customers

Anime

etc

\*3: Based on "2025 Survey on Usage of Paid Video Distribution Services" by Mitsubishi UFJ Research and Consulting Co., Ltd.

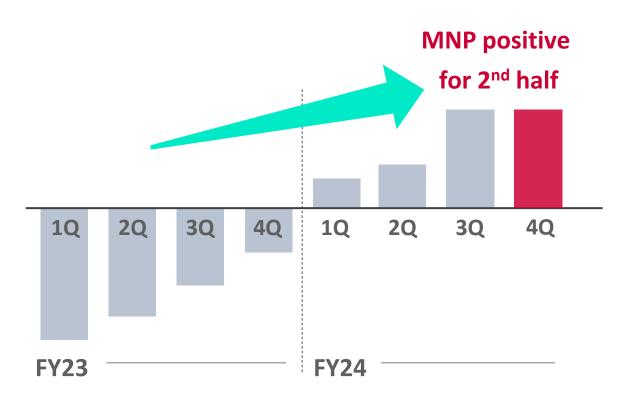

<sup>\*1:</sup> Estimated based on "2024 Basic Survey on Sports Marketing" by Mitsubishi UFJ Research and Consulting Co., Ltd. \*2: Estimated based on "10<sup>th</sup> Questionnaire Survey of 10,000 Consumers in Japan" by Nomura Research Institute, Ltd.

# <Consumer> Customer base and ARPU

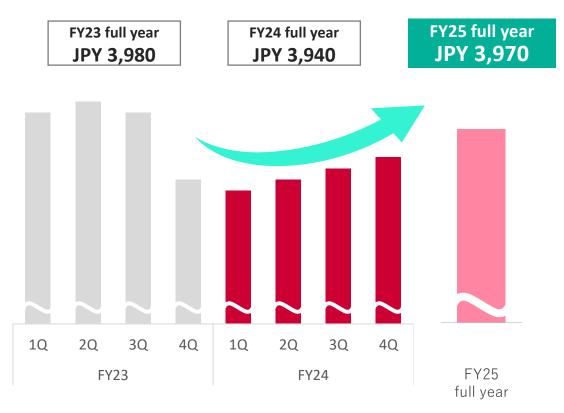

Accelerate the MNP plus trend in the 2nd half toward FY25. ARPU bottomed out in FY24 and reversed.

YOY changes in individual user handset net adds

#### Mobile communication ARPU

<sup>\*</sup> Enterprise accounts included

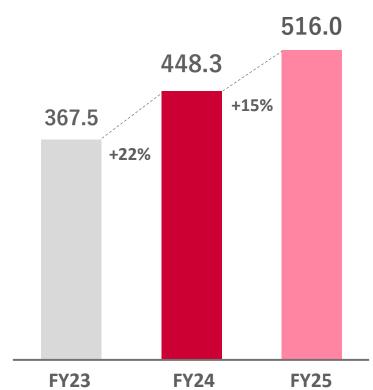

# <Consumer> Finance

Grow overall finance revenues, including investment, loan services, etc., by increasing the membership and transaction amount of "dCARD PLATINUM".

#### Finance revenues

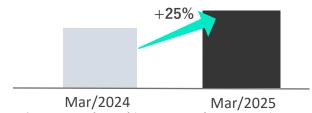

(Billions of yen)

#### Growth of "dCARD PLATINUM" members and transaction amount

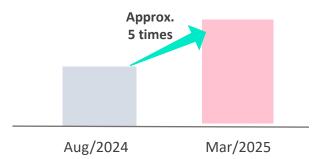

■ Average card usage of PLATINUM members\*1

\* Management accounting value 23

## <Enterprise> Medium-Term Approach toward Growth of Enterprise Business

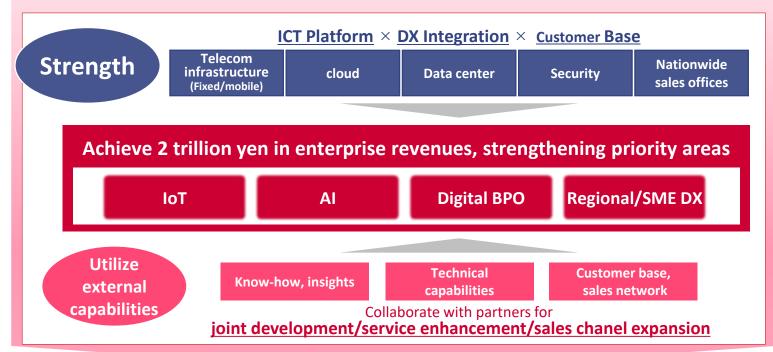

#### Accelerate growth of solutions focusing on four areas.

**FY24** 

**FY25** 

Solutions for large enterprises recorded double-digit growth, successfully capturing DX demand. Mid- and small-sized businesses underperformed expectations due to intensifying competition in mobile space.

Grow solutions through concentration on growth areas leveraging our own strengths and collaboration with partners.

#### Enterprise business revenues

Core (Network, Mobile)

Aim for business growth higher than IT market/competition

(Billions of yen) 2,000 1,902.7 1.881.7 FY23 FY24 FY25 FY27 platform Integration

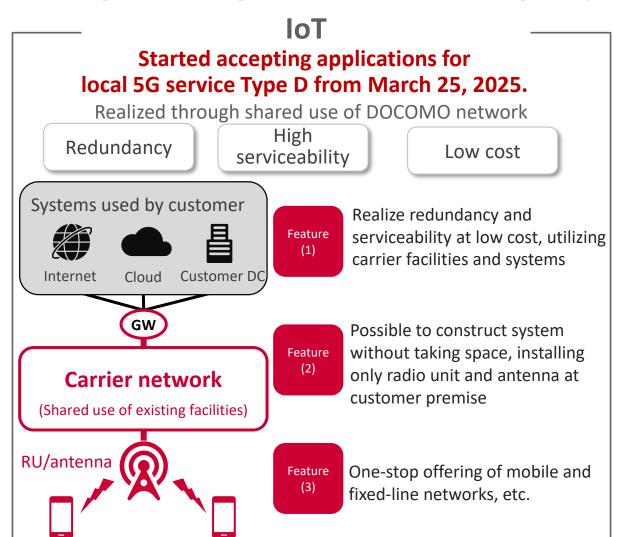

**FY27** 

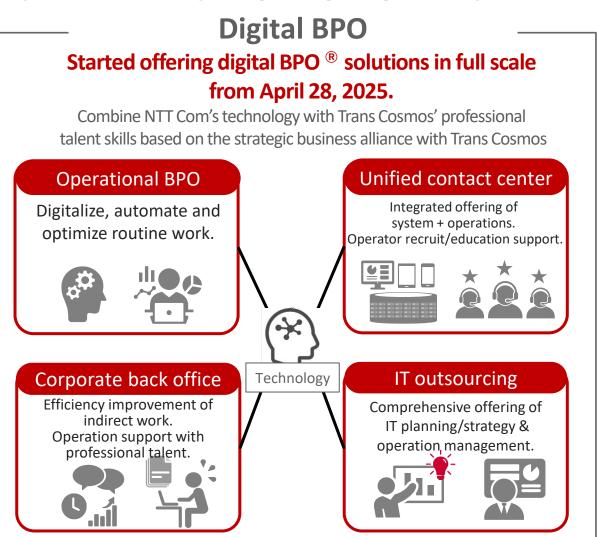

**Establish solid revenue foundation** 

# <Enterprise> IoT / Digital BPO

Strengthen integrated service offerings in priority areas mainly targeting large companies.

"Digital BPO®" is a collective term for services that support the transformation of customers' operations by combining BPO operations with various technologies, and is a registered trademark of transcosmos.

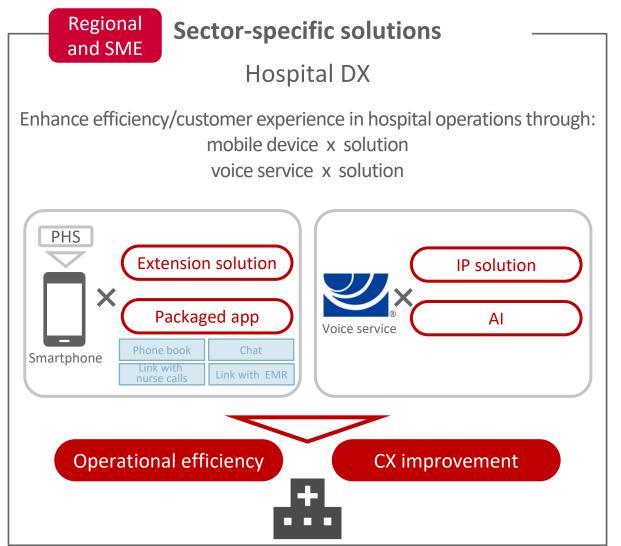

and is a registered trademark of transcosmos.

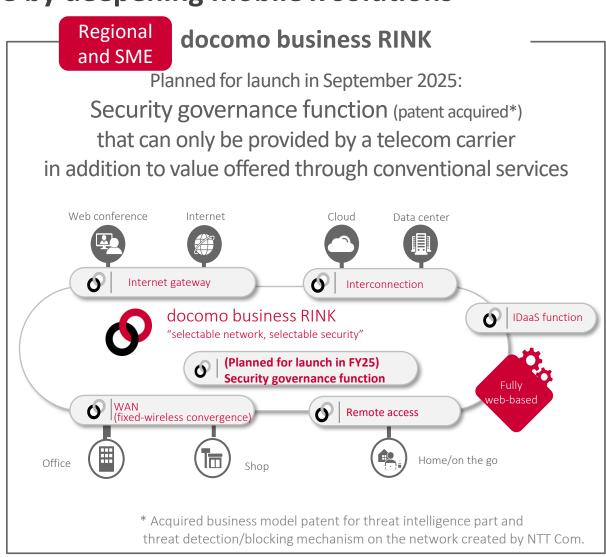

© NTT, Inc. 2025

# <Enterprise> Regional and SME DX

## Strengthen regional and SME customer base by deepening mobile x solutions

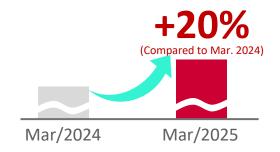

## <Network> FY24 Actions for Communication Quality Improvement

Focused on 5G base station rollout mainly in nationwide urban centers and along key railway routes, while implementing countermeasures for events, and steadily improved the quality experienced by customers.

Increased 5G base stations across Japan\*1

**Strengthened event measures** 

No. of events in which emergency measures were employed

Improved average throughput (downlink) in urban centers and along key railway routes across Japan\*2

Major urban centers

Average throughput (DL)

Up approx. **20%** \*3\*4

Key railway routes

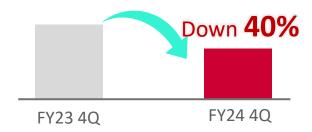

Average throughput (DL)

Up approx. 30% \*3\*4

Ex) Otemachi, Tokyo: Up approx. 60%

Ex) Along Yamanote Line: Up approx. 80%

Reduced no. of complaints posted on SNS across Japan\*5

<sup>\*1:</sup> No. of 5G base stations represent the sum of 5G stations operated using Sub6 and 4G bands. \*2: Measurement points set by NTT DOCOMO in heavily populated areas in urban centers.

<sup>\*3:</sup> Based on in-house survey for downloads using 5G devices during peak hours \*4: As of March 2025 (Compared to March 2024)

<sup>\*5:</sup> DOCOMO survey based on the number of posts on X (former Twitter).

© NTT, Inc. 2025

## <Network> FY24 Actions for Communication Quality Improvement

Accelerate 5G rollout using Sub6 and 4G spectrum. For further improvement of customer experience by the utilization of latest equipment and functions.

#### **FY24**

Deliver comfortable access across Japan focusing on commuting routes and urban centers/event sites where many people gather

#### **FY25**

Construct a network that continues to be chosen by customers

Ensure more comfortable access regardless of location/time. Provide comfortable experience in stadiums/arenas visited by many customers

#### Pursuit of Breadth x Thickness using Sub6 and 4G bands

As of Mar. 2025 As of Mar. 2026 (Compared to Mar. 2024) (Compared to Mar. 2024)

**.40** % +20 % or more Nationwide 5G (Sub6+4G) base stations

**+70** % +40 % ► 5G base stations along major railway routes or more

+120 % or more +70 % ► 5G base stations in major urban centers

+100 % or more • No. of events implemented with measures +70 %

#### Further improving the quality of experience through the expansion of MMU deployment

Reinforcement using Latest Technologies

Newly introduce multi-band MMU\*1 and 4.5GHz-compatible MMU\*2

#### Introduction of/replacement with latest BS equipment

Improved equipment functionality improves the quality of experience and saves power. Speeds up and automates quality improvements.

#### HPUE\*3-enabled smartphones\*4

Improve experience quality by increasing the transmit power of 5G devices

<sup>\*1:</sup> Introduced in FY2024/4Q. Compatible with 3.4/3.5GHz+3.7GHz

<sup>\*2:</sup> Planned for introduction in FY2025/3Q.

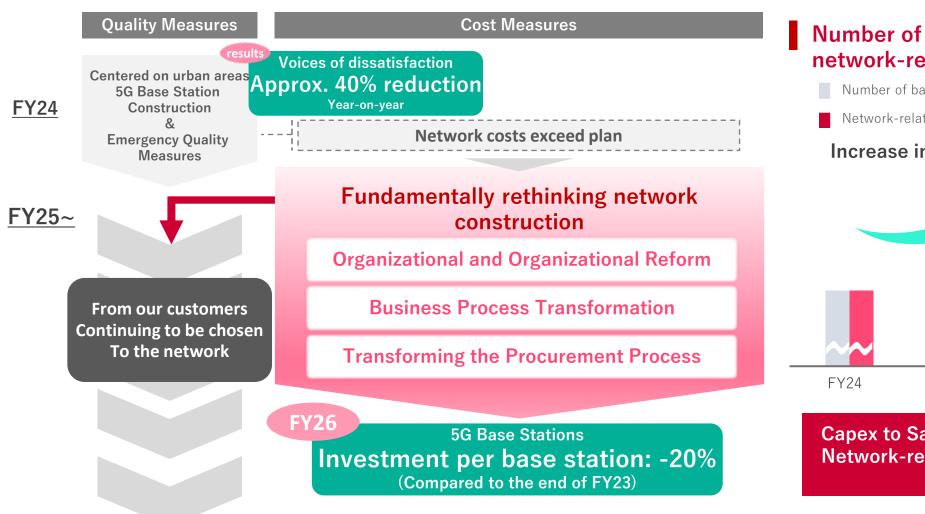

<sup>\*3:</sup> HPUE (High Power UE) is a technology that increases the output power of user equipment e.g., smartphones.

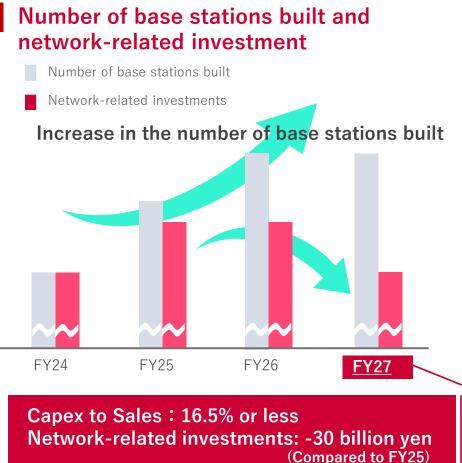

<sup>\*4:</sup> To be implemented in some models planned for release in FY2025/1H.

## <Network> Improving efficiency through network structural reform

#### Engage in structural reforms to accelerate quality measures and reduce costs

# Targets for each indicator toward FY2027

	FY23	FY24	FY27
Consumer business revenues	¥4,476.1 billion	¥4,489 billion	Up ¥350 billion or more
Customer base (Retail user market share*)	34.7%	34.7%	35% or higher
Retail user mobile ARPU	¥4,090	¥4,070	¥4,200
Incl.) Entertainment revenues	¥221.5billion	¥230 billion	¥310 billion
Incl.) Finance/payment revenues	¥367.5 billion	¥450 billion	¥630 billion
Incl.) Marketing solutions revenues	¥134 billion	¥180 billion	¥270 billion

<sup>\*</sup>No. of handset subscribers in total population, excluding the impact of 3G service termination

<sup>\*</sup> Figures in < > represent new orders received excluding data center business (DC business)

# **New Orders Received | YoY Changes**

New orders received in the entire Group increased by 170.7 billion yen year on year, driven by growth in both the Japan and Overseas segments. The effects of exchange rates contributed to the increase in the Overseas Segment.

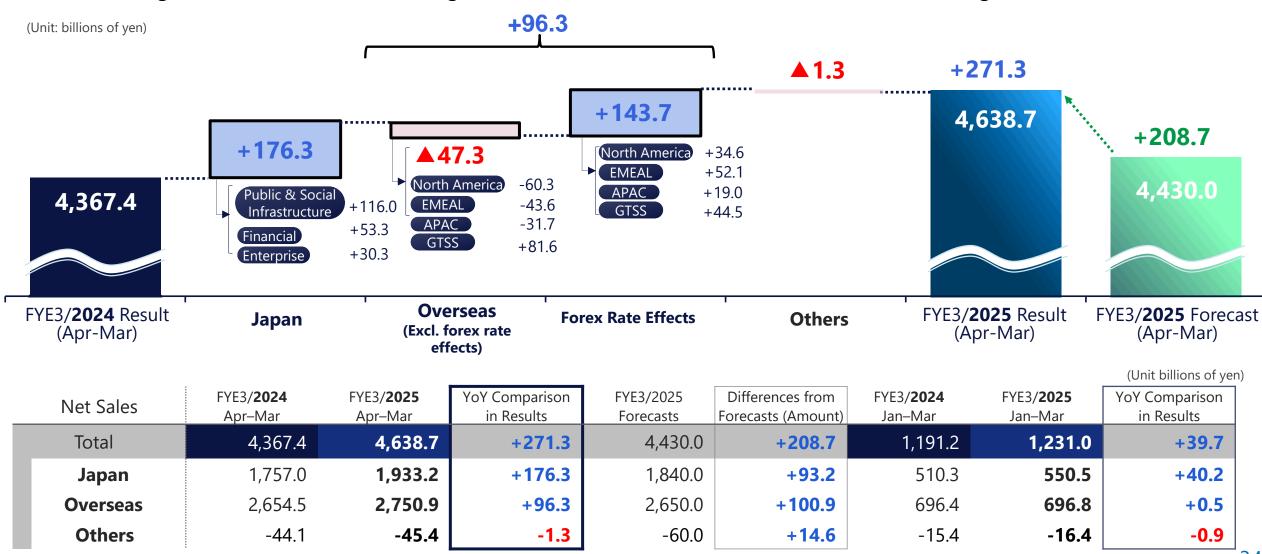

<sup>(\*)</sup> Includes new orders received for the DC Business of ¥791.0B for FYE3/2024 (Apr-Mar) and ¥692.8 billion for FYE3/2025 (Apr-Mar). FYE3/2025 forecasts do not include such figures.

# **Net Sales** | YoY Changes

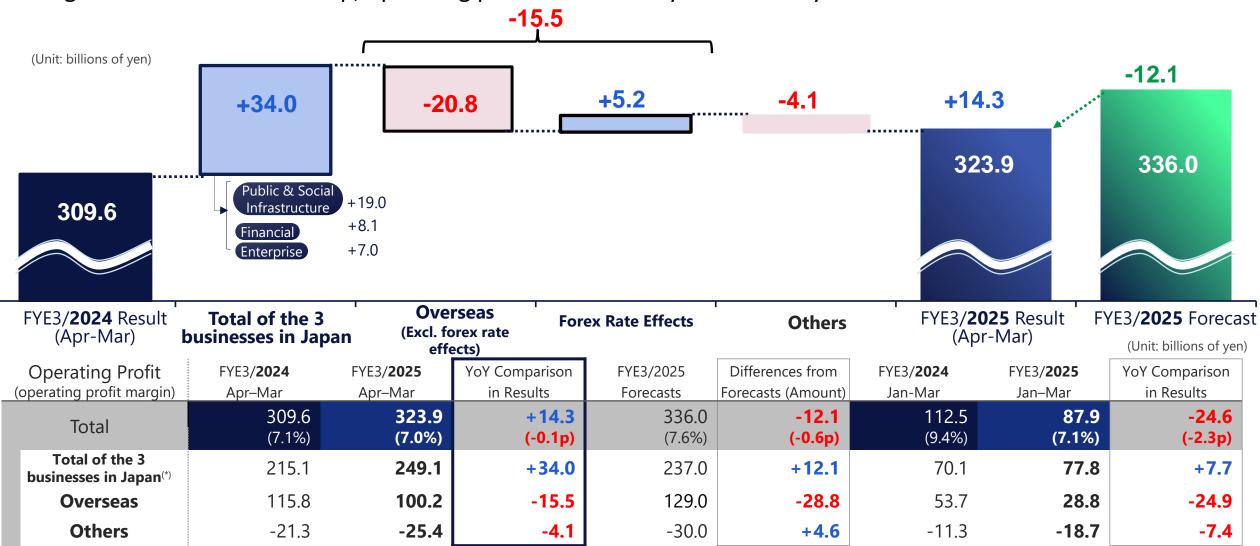

Net sales in the entire Group increased by 271.3 billion yen year on year, driven by growth in both the Japan and Overseas segments. The effects of exchange rates contributed to the increase in the Overseas Segment.

# **Operating Profit | YoY Changes**

Operating profit increased in all the 3 businesses in the Japan Segment, but declined in the Overseas Segment. In the entire Group, operating profit increased by 14.3 billion yen.

## **Breakdown of Japan Segment Results**

# All of new orders received, net sales, and operating profit increased year on year in the Japan Segment, exceeding the forecasts.

- **New orders received** in the Public & Social Infrastructure business decreased year on year due to a drop in large-scale projects recorded in the previous fiscal year. The Financial business increased on the back of growth in projects for "Major Financial Institutions" and "Financial Infrastructure/Network Services, Insurance." The Enterprise business also increased due to growth in projects for "Manufacturing and Services." All the three businesses achieved the forecasts.
- **Net sales** increased in all the three businesses, mainly backed by a substantial increase in the Public & Social Infrastructure business. The Public & Infrastructure and Financial businesses achieved the forecasts.
- **Operating profit** increased in all the three businesses in line with the sales increases, and the operating profit margin also improved. The Public & Social Infrastructure business largely exceeded the forecast, contributing to the achievement in the total operating profit of the three businesses.

(Unit: billions of yen)	FYE3/2024 Apr-Mar	FYE3/2025 Apr-Mar			Differences From Forecasts (Amount)	
New Orders Received	1,646.7	1,747.5	+100.7	1,650.0	+97.5	
್ಞಾ Public & Social Infrastructure	675.1	662.6	-12.6	657.0	+5.6	
Public & Social Infrastructure Financial Enterprise	527.7	596.1	+68.4	530.0	+66.1	
Enterprise Enterprise	381.3	418.7	+37.4	405.0	+13.7	
Net Sales	1,757.0	1,933.2	+176.3	1,840.0	+93.2	
ਨੂ Public & Social Infrastructure	692.3	808.3	+116.0	758.0	+50.3	
Public & Social Infrastructure Financial Enterprise	696.2	749.5	+53.3	727.0	+22.5	
Enterprise	535.2	565.6	+30.3 <sup>(*1)</sup>	578.0	- <b>12.4</b> <sup>(*1)</sup>	
Operating Profit < Total of the 3 businesses > (operating profit margin)	215.1	249.1	+34.0	237.0	+12.1	
সু Public & Social Infrastructure	89.3 (12.9%)	108.3 (13.4%)	+19.0 (+0.5p)	94.0 (12.4%)	+14.3 (+1.0p)	
Public & Social Infrastructure Financial Enterprise	71.4 (10.3%)	79.5 (10.6%)	+8.1 (+0.3p)	81.0 (11.1%)	-1.5 (-0.5p)	
Enterprise	54.4 (10.2%)	61.3 (10.8%)	+7.0 (+0.7p)	62.0 (10.7%)	+0.7 (+0.1p)	

(\*1) Include a sales decline due to the shift from gross reporting to net reporting following the change in accounting treatment in some of the Payments business.

# **Breakdown of Overseas Segment Results** (North America, EMEAL, APAC)

37

Net sales and profits both decreased in the regional units (North America, EMEAL, APAC) if the effects of exchange rates are excluded.

- **New orders received** increased year on year in North America as large-scale projects were acquired as a result of our Client Growth Office(\*) initiative. In EMEAL, new orders received declined partly due to sluggish performances in U.K. and Germany.
- **Net sales**, excluding the effects of exchange rates, declined in all the regional units due to such factors as lower net sales in North America, U.K., Germany, and Australia.
- **EBITA** was almost at the same level as the previous fiscal year in North America, thanks to efforts to curb administrative expenses. EBITA declined in EMEAL in line with a drop in net sales and declined in APAC as well due to occurrence of unprofitable projects in addition to the lower net sales.

(\*) "Client Growth Office" is an office set up in FY2024 to engage in growth strategies. The office has been working to acquire projects from key clients in a strategic and proactive manner.

## **Breakdown of Overseas Segment Results (GTSS)**

#### Net sales and profits both increased in the GTSS(Global Technology and Solution Services) unit.

- **New orders received** declined year on year due to a drop in large-scale orders in the Data Center business that were recorded in the previous fiscal year. Yet, demand remained robust.
- Net sales increased, largely exceeding the forecasts, as both the Data Center and SAP businesses expanded steadily.
- **EBITA** increased in line with bigger sales and achieved the forecast as well.

(Unit: billions of yen)

	FYE3/2024 Apr-Mar	FYE3/2025 Apr-Mar	YoY (Amount)	Excl. Forex Effects <sup>(*2)</sup>	Forex Effects(*2)	FYE3/2025 Forecasts	Differences From Forecasts (Amount)
New Orders Received <sup>(*3)</sup>	1,073.8	1,065.6	-8.2	-63.8	+55.6	Excl. DC business 280.0	-
Net Sales	726.0	852.0	+126.0	+81.6	+44.5	746.0	+106.0
EBITA <sup>(*1)</sup> (EBITA Margin)	85.5 (11.8%)	100.1 (11.8%)	+14.7 (-0.0p)	+9.5	+5.2	84.0 (11.3%)	+16.1

<sup>(\*1)</sup> EBITA = operating profit + amortization of intangible assets through PPA following acquisitions, etc.

<sup>(\*2)</sup> Forex Effects refer to the amounts affected by differences in exchange rates between the year under review and the previous year, when USD-denominated results are converted into the yen, in all units. The average rate against USD was JPY144.65 for FYE3/2024 Apr-Mar and JPY152.62 for FYE3/2025 Apr-Mar.

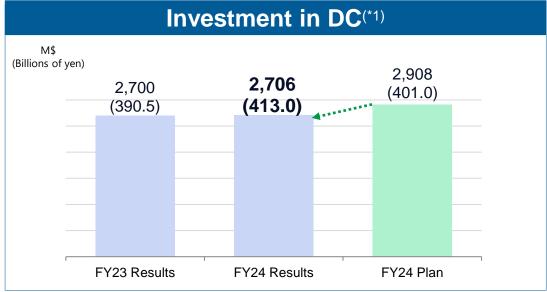

<sup>(\*3)</sup> Of the total, new orders received for the DC business came to 791.0 billion yen in FYE3/2024 Apr-Mar and 692.8 billion yen in FYE3/2025 Apr-Mar(a YoY decline of 98.2 billion yen). The DC business is not included in FYE3/2025 Forecasts.

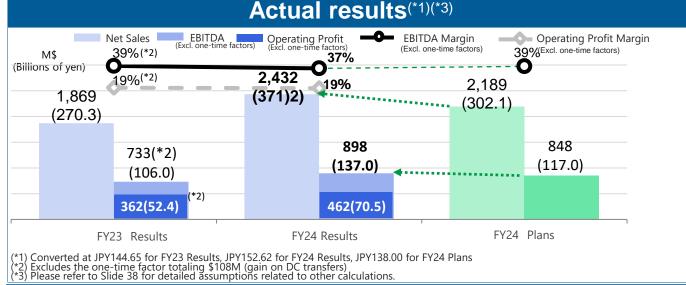

#### Status of the Data Center Business

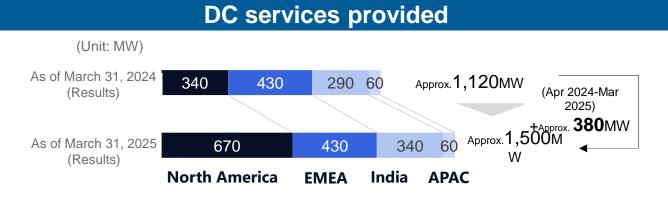

- •The investment amounted to \$2,706M (¥413.0B), up \$6M (¥22.5B) from the previous year. But the investment was lower than the forecast, with some of the spending being deferred.
- •Demand remained strong, with order backlog of \$14,974M (¥2,239.1B), up \$2,721M (¥384.0B) from the March 2024 end of the previous year.
- •Net sales came to \$2,432M (¥371.2B), up \$563M (¥100.8B) or about 30% from the previous year.

•In FY2024, the provision of DC service totaling about 380 MW started mainly in North America. A total of about 1,500MW was provided as of the end of March 2025.

#### Forecasts for the Fiscal Year Ending March 31, 2026

# Expected to achieve the MMP targets (consolidated net sales of 4.7 trillion yen, consolidated operating profit margin<sup>(\*1)</sup> of 10%, overseas EBITA ratio<sup>(\*1)</sup> of 10%)

- > **Net sales** are forecast to rise by over 6% year on year on the back of an expected business expansion in Japan and overseas and utilization of REITs in the Data Center business.
- > **Operating profit** is also expected to surge due to emerging synergies from business transformation and utilization of REITs in the Data Center business on top of an expected increase in net sales.
- Profit is also forecast to post a substantial increase in line with an expected steep rise in operating profit.

#### **Initiatives to Restore Business Results**

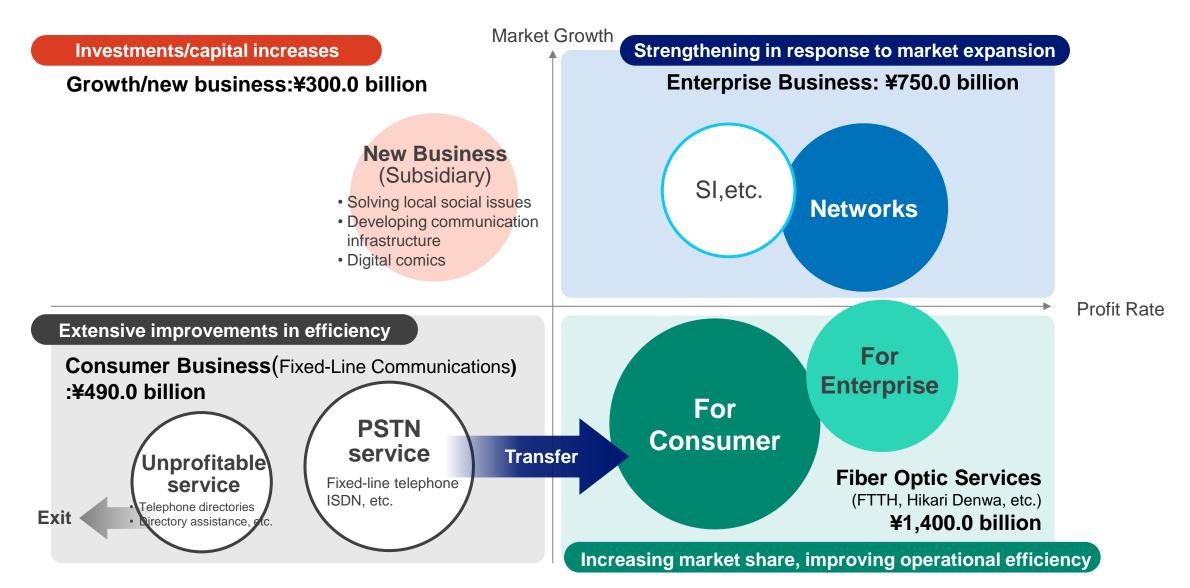

- Expansion of new businesses, further re-evaluation of fees, etc.
- Re-evaluation of personnel and business portfolio

  FY2027 +¥45.0 billion
- Initiatives to restore FTTH FY2027 +¥40.0 billion
- Initiatives to expand the Enterprise
  Business and other businesses
  FY2027 +¥25.0 billion
- Continuation of management improvement initiatives, including reductions in equipment costs and personnel expenses

#### **Direction of Each Business Portfolio**

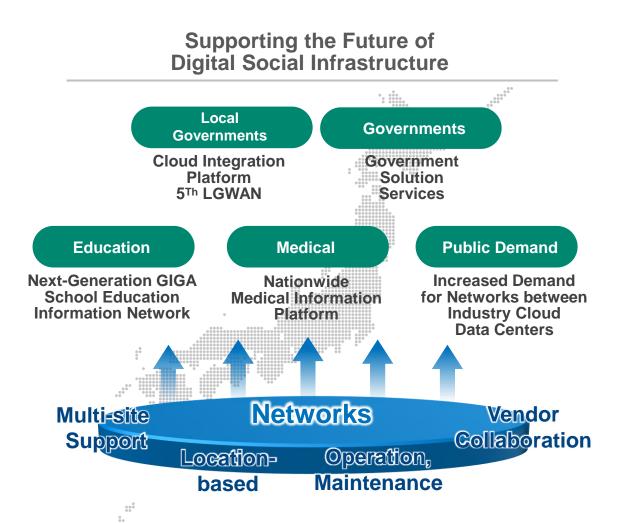

Note: Circle sizes represent FY2023 operating revenues.

## **Evolving and Expanding the Enterprise Network Business**

Making the most of existing optical networks, we will leverage our strengths in regional connections and engineering to expand our network businesses that support the digitalization of society (targeting a ¥25.0 billion increase in profit through FY2027)

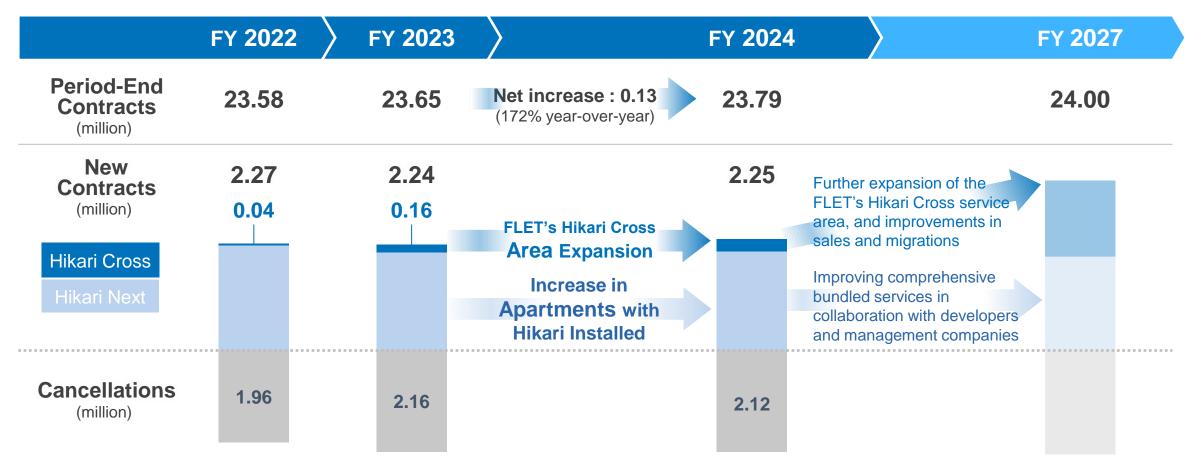

# **Current Status of Fiber Optic Services and Future Targets**

• By strengthening sales and improving the pricing strategies for FLET's Hikari Cross and the apartment building market business, we plan to expand our market share and improve our profitability, with a goal of generating profit of ¥40.0 billion in FY2027

#### **Initiatives to Increase Hikari Cross Sales**

#### (Responding to Demand for Faster Fiber Optic Speeds)

We will expand the Hikari base with improved support for high-speed demand by promoting transitions to Hikari Cross, which is expected to increase ARPU, with free installations and other promotional measures, investments in other promotions based on the market environment, and service area expansion initiatives

#### **Strengthened Support for High-Speed Demand/ Sales Promotion Measures**

#### **Hikari Cross support for** Support for High-Speed Demand apartment buildings (from 2022) Hikari Denwa support (from 2023) Launch of comprehensive Hikari **Cross support across** entire households **Expansion of Hikari** Service Area Expansion Cross service area Strengthening the apartment building market

by collaborating with real

businesses

#### campaigns with collaboration companies (such as one-coin CPs, Sales Promotional Measures etc.) No transfer fees for transfers from services 1 Giga services **Prioritizing** allocations of sales promotion costs to competitive areas

**Discount** 

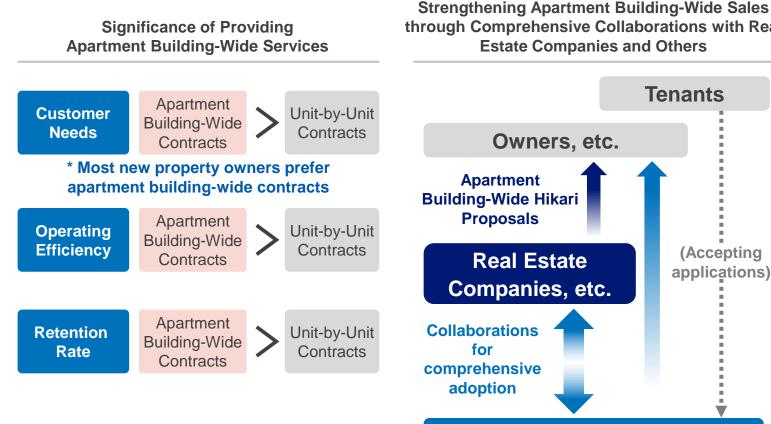

#### Schedule for Hikari Cross Service Area Expansion

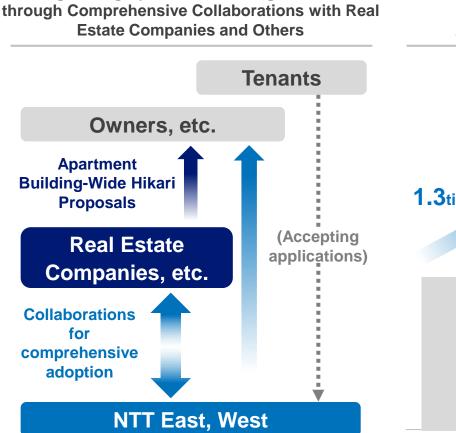

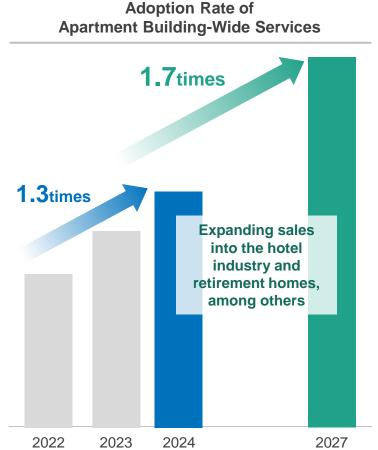

# **Initiatives in the Apartment Market**

- We will strengthen collaborations with developers and management companies to launch comprehensive apartment building-wide services that meet market needs and have high operating efficiency
- We will shift to a business model in which we can maintain medium- and long-term revenues by expanding comprehensive apartment services

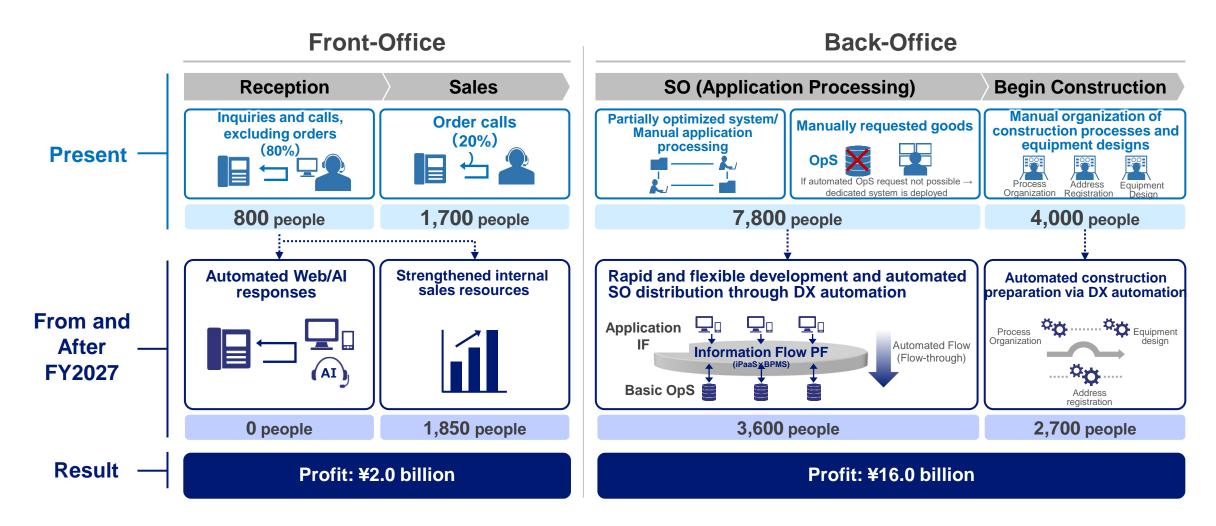

#### Reforming Telecommunications Operations through DX and AI

- We will fully leverage DX and AI to redesign personnel-heavy front and back-office support services
- ⇒ Enhancing efficiency and transitioning to "zero-touch (automated)"
- We are aiming to improve profit by ¥18.0 billion through FY2027 by reducing headcount by about half

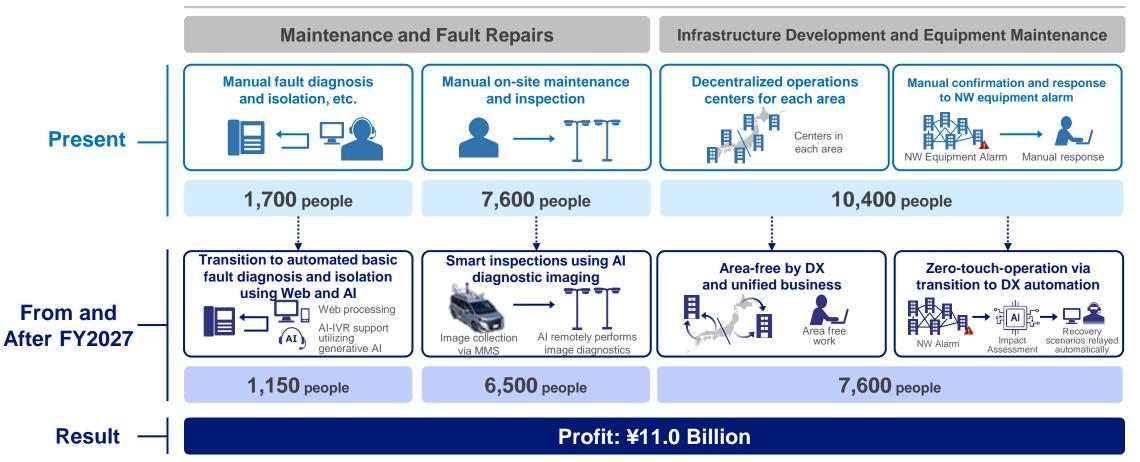

#### Reforming Telecommunications Operations through DX and AI

- We will upgrade on-site operations and other manual tasks through the use of AI diagnostic imaging and other technologies
- We will fully leverage DX and AI to transition routine repetitive tasks in the operation of NW equipment to "zero-touch" (automated)," with the aim of improving profit by ¥11.0 billion through FY2027

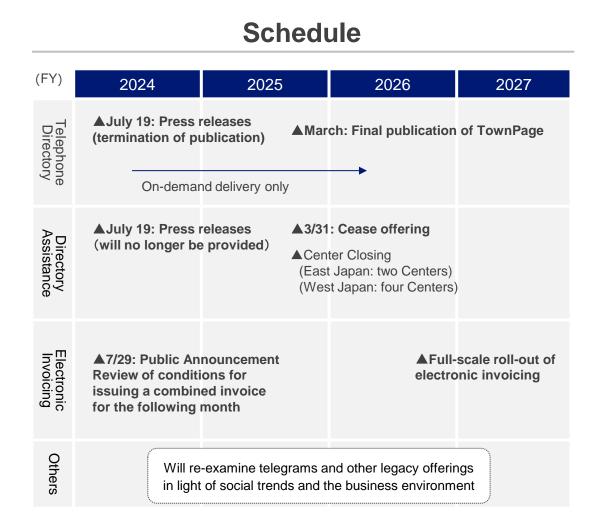

#### **Facilities-Related Operations**

# **Exit from Unprofitable Services**

We will aim to improve profit by ¥13.5 billion in FY2027 through the termination of consumer line-related businesses and initiatives to promote the rapid shift to digital services

#### **Profit Improvement Effects** (Billions of yen) +13.5Telephone Directory **Directory Assistance** +6.5 **Electronic Invoicing** +8.0 +1.0 +5.0 +0.1 +6.0 +2.0 +1.0+3.0 +1.5 +0.5 +0.1 +1.0

# Migration to Alternative PSTN Services

- The ¥350.0 billion PSTN service revenue base will be maintained to the fullest extent possible by encouraging migration and improving pricing strategies at various contact opportunities with customers
- Migration to alternative services (optical and wireless fixed-line telephones) by around 2035, when the
  metal facilities reach their limits

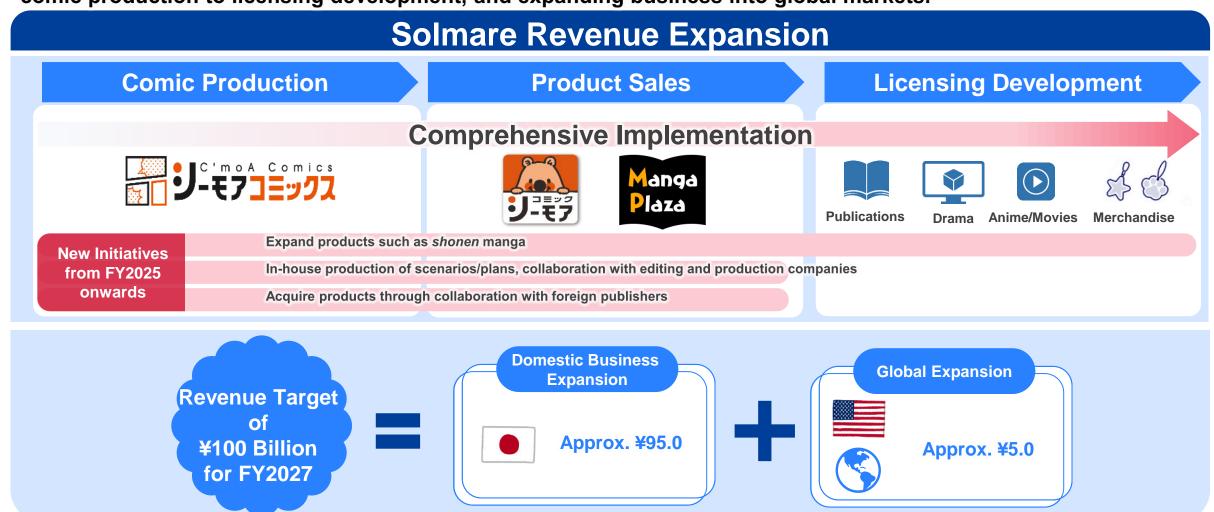

# **Further Expansion of Growth Businesses**

(Solmare Expansion)

- > Expand Comic Cmoa, one of the largest e-book stores in Japan (with more than 40 million monthly users and over 1.4 million books).
- ➤ Aim to achieve company-wide sales of ¥100 billion in FY2027 by strengthening comprehensive efforts, from original comic production to licensing development, and expanding business into global markets.

# Initiatives of a sustainable society, etc.

60

# **Sustainability Charter**

- Establishment of Sustainability Charter in November 2021
- Three themes and nine challenges are set. Key indicators (carbon neutrality, percentage of new female managers, employee engagement rate, customer engagement) are reflected in executive compensation.

	Sustainabil	ity Charter		
		Ensuring the		Moving towards a decarbonized society
		positive coexistence of nature and	Responding to environmental and energy challenges	A commitment to a resource-recycling future
		humanity		A future where people and nature are in harmony
	NTT's vision of sustainable society			Establish shared ethical standards
		Improving prosperity for all people and cultures	Addressing social issues	Prepare for a new future with the power of digital technology
				Moving towards a safe, secure, and resilient society
				Respect for human rights
		Maximizing wellbeing for all	Addressing human rights, and diversity and inclusion	Diversity & Inclusion
				Creating new work style models

# Targets of "NTT Green Innovation toward 2040"

FY2030 Reduction of NTT Group's greenhouse gas emissions by 80% (compared to FY2013)
 Carbon neutrality for the mobile (NTT DOCOMO) and data center businesses

FY2040 Carbon neutrality as NTT Group

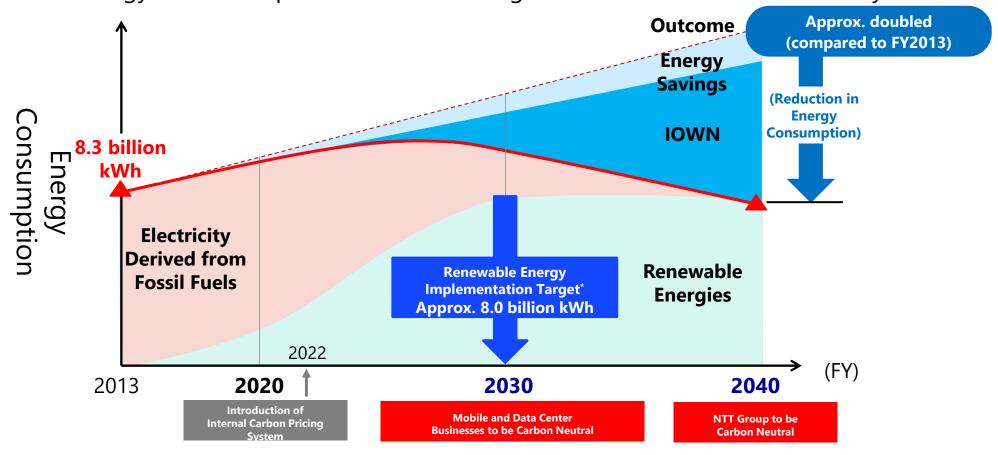

Source: Created from "NTT Green Innovation toward 2040" Presentation (September 28, 2021).

# **Outlook of NTT Group's Energy Consumption**

- BY replacing legacy facilities with IOWN, energy consumption will be reduced by approximately half by FY2040
- Renewable energy will be adopted for the remaining half to achieve carbon neutrality

Source: Created from NTT IR DAY 2021 Presentation.

<sup>\*</sup> Includes certified renewable energy equivalents derived from non-fossil fuels

# **Towards Achieving Net Zero in 2040**

- With 2023 preliminary results for scope 1 and 2 emissions being 2.42 million tons, our emissions are reducing faster than planned and we are making steady progress towards carbon neutral in 2040
- By encouraging and supporting suppliers with their emissions reduction efforts and emissions data visualization, and by providing renewable energy onboarding support for customers, among other initiatives, we are aiming for 17 million tons of Scope 1, 2 and 3 emissions by 2030

2040

**Carbon Neutral** 

# Key initiatives in Scope 3 Emission Reduction

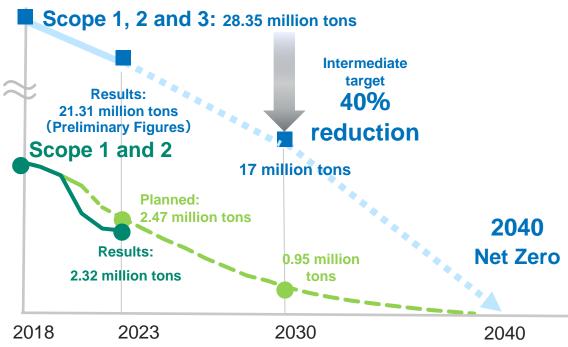

#### Further Strengthening of Collaboration with Suppliers

 Encouraging and supporting emissions data visualization and target setting

#### Customers' Contributions to Decarbonization

- Renewable energy onboarding support for data center customers and other customers
- Providing cloud services and promoting energy savings in products

Illustration of NTT Group Greenhouse Gas Emission Reductions(Domestic and Overseas)

<sup>\*</sup> Scope 1: Direct greenhouse gas emissions. Scope 2: indirect emissions associated with the purchase of electricity, heat and steam that are provided by other companies. Scope 3: Emissions in the supply chain relating to business activities.

# **Current Status and Future of Renewable Energy Business**

- As a result of acquiring Green Power Investment (GPI), a leading domestic renewable energy company, in 2023, NTT added wind power generation to its solar power generation capabilities, and anticipates achieving its renewal energy acquisition forecast of 8 billion kWh per year in FY2030
- NTT will strengthen its support for customers' Green Transformation (GX) by leveraging the Group's renewable energy-related assets, technologies and solutions

(1) Expectations at the end of each fiscal year (2) Internal calculations based on the FY2022 statistical survey of CO<sub>2</sub> emissions from the household sector (confirmed figures).

# **New Green Transformation Initiatives (GX)**

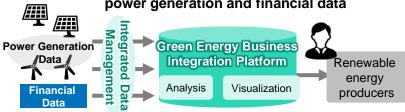

retailers

# ■ Launch the new G NTTG×Inno solutions brand to strengthen initiatives in the GX field

#### **Specific Initiatives:**

- NTT Comware launched the "Smart Data Fusion" green energy business integration platform to help renewable energy producers with their GX
- NTT Anode Energy will develop an energy distribution platform to support the supply of renewable energy and provide optimal operation and control solutions that balance the supply and demand for renewable energy producers, electricity retailers and others
- Aiming to achieve up to Scope 3 carbon neutrality by adopting NTT DATA's
  "C-Turtle" greenhouse gas emissions visualization platform across all NTT
  Group companies, and increasing the number of suppliers working
  together to reduce carbon emissions to around 1,000 companies by

# Reinforcement of Corporate Governance

June 2020	•	Introduced an executive officers system* (separation of the functions of managerial decision-making/supervision and business execution) Increased the ratio of outside directors from 27% to 50% *Introduced an executive officers system into key group companies in June 2021
August 2021	•	Increased the percentage of officers' performance-linked compensation from approx. 30% to 50%. (Introduction of a performance-linked stock compensation system) Increased the number of outside independent Members of the Board in the Appointment and Compensation Committee from two to three, causing the outside independent Members of the Board to become the majority.
November 2021	•	The Appointment and Compensation Committee was divided into the Nomination Committee and the Compensation Committee, with their respective functions transferred accordingly. The Sustainability Committee was moved from the Executive Officers Meeting to directly under the Board of Directors
June 2022	•	Number of Members of the Board will be increased from the current 8 members to 10 members (with 5 outside members of the board)  One full-time outside corporate auditor will be added, increasing the total number of Audit & Supervisory Board Members from the current 5 to 6  Ratio of female Members of the Board, Audit & Supervisory Board Members and Senior Vice Presidents to be increased to over 30%  Internal Control Office will be reorganized into an Internal Audit Department under the direct control of the president
June 2023	•	Due to the retirement of the outside corporate auditor, the number of auditors is reduced from the current 6 to 5.
June 2025	•	Transition to a Company with an Audit and Supervisory Committee

#### [Corporate governance system\*]

## NTT's LLM tsuzumi

- Since commercialization in March 2024, customers from a variety of fields have indicated interest, with over 600 proposals for implementation
- Going forward, NTT will collaborate with its partners to accelerate the expansion of tsuzumi both domestically and overseas

# **Status of tsuzumi Proposals** As of March 2025 Implementation Proposals Inquiries/Adoption Consultation

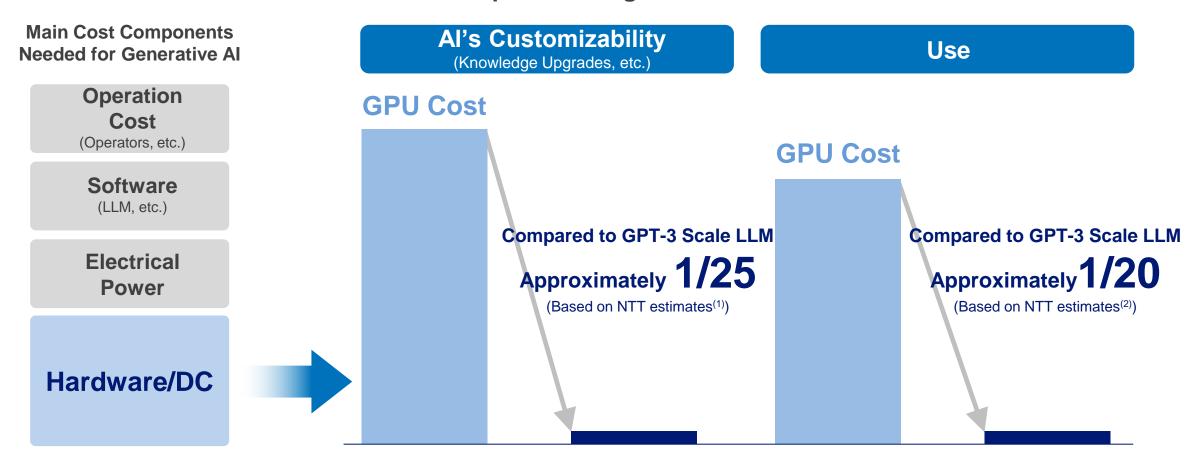

## **Expanding Further through Strengthened Partnerships**

# **High Level of Cost Performance**

Achieves high level of functionality while reducing hardware costs necessary for the implementation and operation of generative Al

<sup>(1)</sup> Calculated from the parameter ratio from the same training dataset.

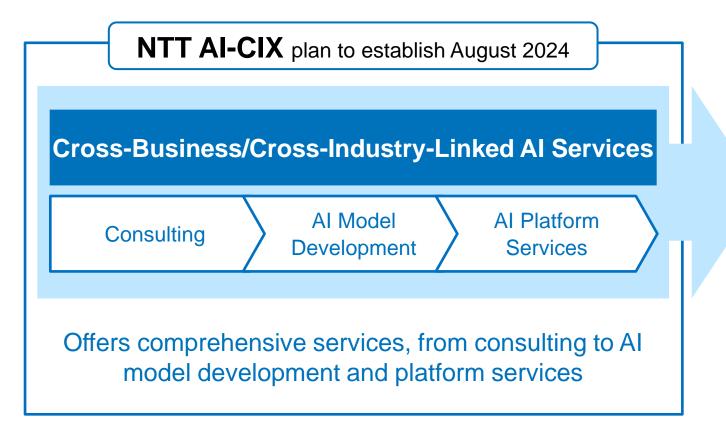

75

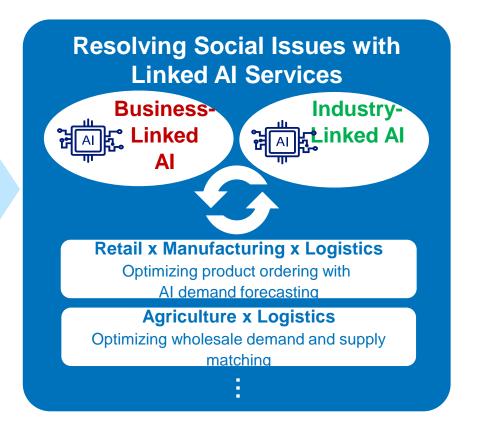

<sup>(2)</sup> Calculated from expected costs of utilized GPU models.

## Plan to establish "NTT Al-CIX" to Promote Linked Al

- In August 2024, NTT plan to establish "NTT AI-CIX" Corporation (NTT AI-CIX)" to promote cross-business/cross-industry-linked AI services \* AI-Cross Industry transformation
- NTT aims to achieve the optimization of the entire supply chain through the use of cross-business/cross-industry-linked data, and to resolve labor shortages and other social issues

# **Shareholder Returns**

# New Medium-Term Management Strategy New Value Creation & Sustainability 2027 Powered by IOWN

# Fundamental Principles of New Value Creation & Sustainability 2027 Powered by IOWN

# Innovating a Sustainable Future for People and Planet

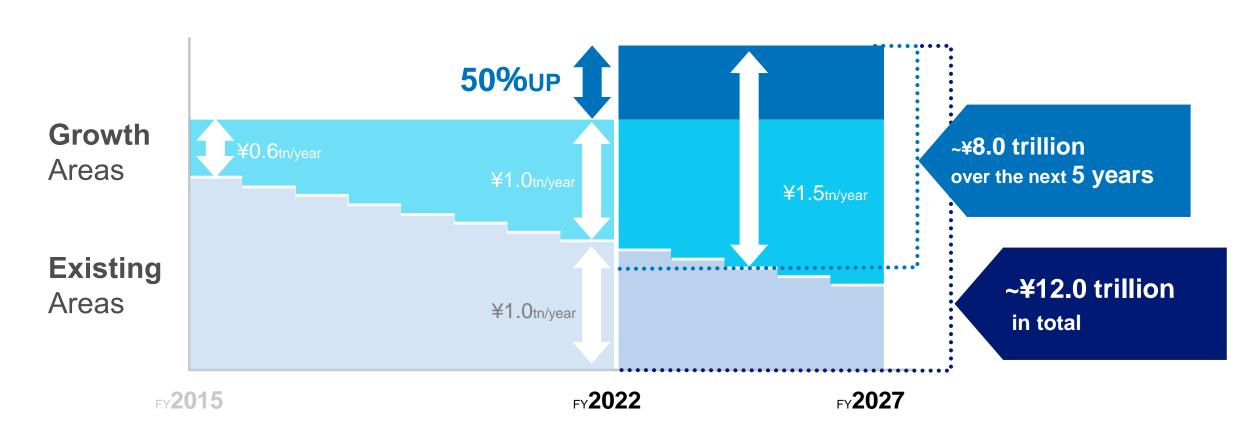

## For that Purpose, We Will Increase Our Investments in Growth Areas

97

# Will invest ~¥8.0 trillion

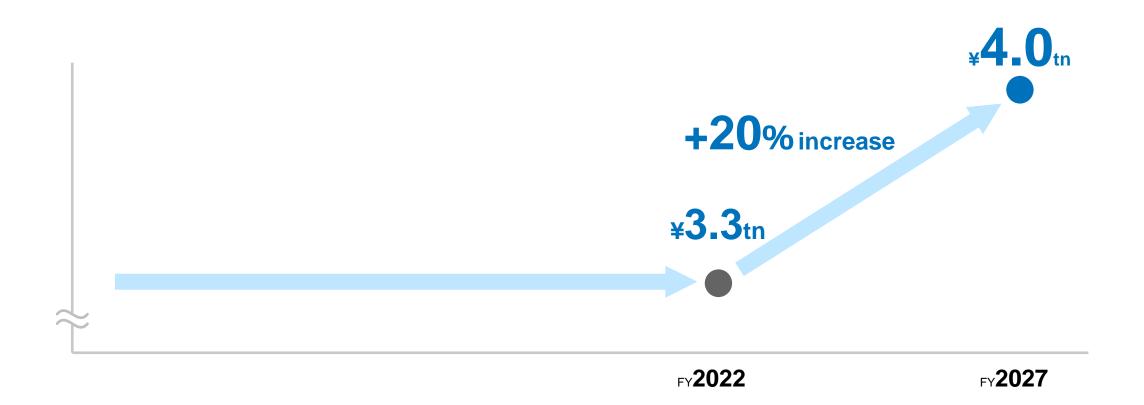

in growth areas over the next 5 years

# We Will Also Further Increase Our Cash-Generation Ability for the Future

Looking ahead to FY2027, aiming to increase our cash-generation ability for growth and reach EBITDA of ~¥4.0 trillion

## **Pillars of Our Initiatives**

## 1. NTT as a Creator of New Value and Accelerator of a Global Sustainable Society

- 1 IOWN-Driven Creation of New Value (from concept to commercialization)
- i. Establishment of manufacturing company for photonicelectronic convergence devices
- ii. Acceleration of IOWN research and development/
- **2Data-Driven Creation of New Value**
- i. Strengthening the personal business
- ii. Strengthening the use of DX/data in society and industry
- iii. Expansion and upgrade of data center infrastructure

- **3** Achievement of a Circular Economy Society
  - Develop sustainability solutions for customers
  - ii. Creating Circular Economy businesses
  - iii. Progression towards Net-Zero
- **4** Further Strengthening of Business Foundations

- 2. Upgrading the Customer Experience (CX)
- **5** Fusion of Research and Development with a Market-Focused Strategy
- 6 Strengthening of Services that Emphasize Customer Experience (CX)

3. Improving the Employee Experience (EX)

- Open and Innovative Corporate Culture
- **8 Support Career Growth**
- Global Benefits for Employees and their Families

## (from Concept to Commercialization)

- i. Establishment of manufacturing company for photonic-electronic convergence devices
- Will establish "NTT Innovative Devices Corporation" in June 2023 to rapidly commercialize photonic-electronic convergence devices that achieve low power consumption, as a solution to the growing power consumption caused by the increased use of Al (starting with an initial investment of ¥30.0 billion, with subsequent increases to be considered)

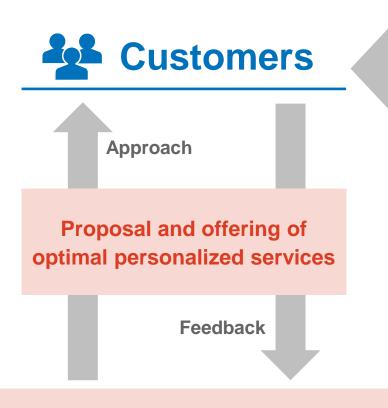

- ii . Acceleration of IOWN (including 6G) research and development/commercialization
- Total research and development for IOWN (including 6G) will be ~¥100.0 billion for FY2023 with continued investments thereafter, and accelerated commercialization of servers (SWB<sup>(1)</sup>) and DTC<sup>(2)</sup>

(1) Super White Box (2) Digital Twin Computing

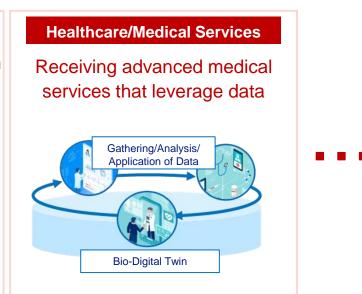

- i. Strengthening personal business (strengthening DOCOMO's Smart Life businesses)
  - Will actively invest in personal business and other growth areas (at least ~¥1.0tn/5 years)

Various Service Offerings

**Accumulating Customer Information of Company/Partners** 

**Al-Driven Analysis** 

**Data Platform** 

**DOCOMO Customer Base** 

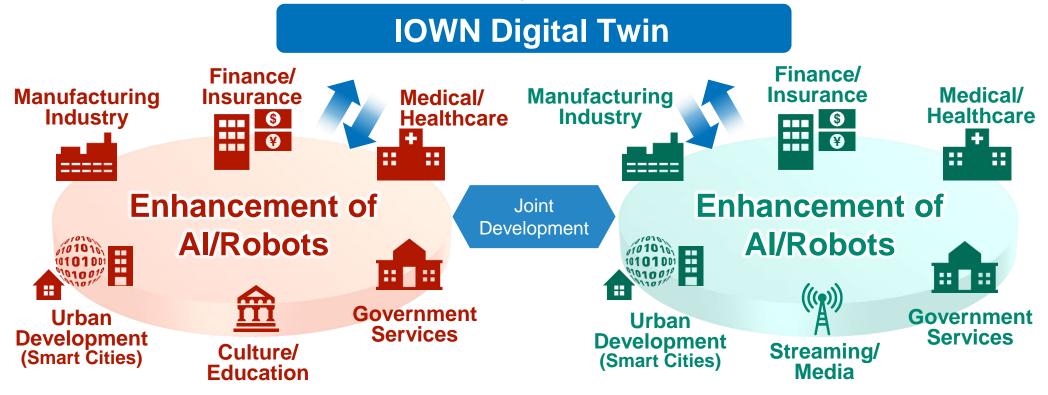

Partners' Customer Bases

- ii . Strengthening the Use of DX/Data in Society and Industry (use of Al/Robots)
  - Will jointly develop technology and solutions globally, transforming industries that support day-to-day life and society

(will make investments of at least ~\frac{\pmax}{3.0\tn/5} years in digital business)

Advancement of DX and Data Utilization in Domestic Industries

Global Digital Business Innovation

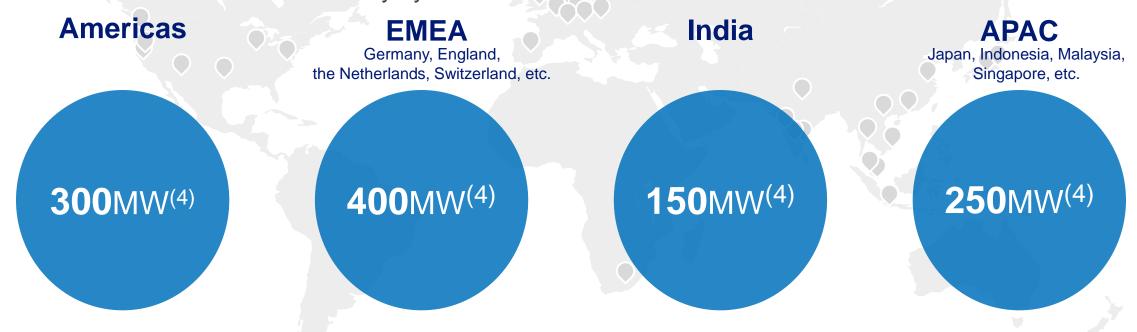

## iii. Expansion and Upgrade of Data Centers

■ Will further expand the world's third-largest<sup>(1)</sup> data center infrastructure, and implement upgrades through the introduction of IOWN technology

(will make investments of at least ~\fmu1.5tn/5 years(2))

■ Achievement of carbon neutrality by FY2030<sup>(3)</sup>

## Nearly Doubling the Current Total of 1,100MW

<sup>(1)</sup> Recalculated from Structure Research 2022 Report, excluding Chinese operators. (2) Does not include capital investments made using third-party capital.

<sup>(3)</sup> The targets for reduction are Scope 1 (our own direct greenhouse gas emissions) and Scope 2 (indirect emissions associated with the purchase of electricity, heat and steam that are provided by other companies) under the GHG protocol for data centers. (4) IT power capacity of purpose-built datacenters owned by NTT Communications Group and NTT Ltd. Group (including JVs with third parties) as of March 2023.

# **3 Achievement of a Circular Economy Society**

## i. Develop sustainability solutions for customers

Will promote green solutions that can be achieved by "Green Energy x ICT" (will make investments of ~\fmu1.0tn/5 years)

Will expand our renewable energy generation business and achieve a stable supply of optimized and efficient energy directed towards local production for local consumption

**Renewable Energy** Generation

**Stable Supply of Energy Directed towards Local Production for Local Consumption** 

Data gathering and Al-based analysis/predictions

Solar **Power** 

**Hydroelectric** 

**Power** 

Storage **Batteries**  **Green Energy** 

**Local Grid Networks** 

(1) Energy Management System

## **3 Achievement of a Circular Economy Society**

## ii . Creating Circular Economy-Oriented Businesses

■ Will achieve a sustainable society by recycling resources across various industries and further accelerating regional revitalization

Achievement of a circular economy society across various industries, with energy as the starting point

Garbage Recycling/ Biomass Plants

**Renewable Energy** 

Water/wind/solar power, etc.

**Smart Forestry** 

 IoT and digitalization of forestry, etc. Improved efficiency, value-addition and industrial development in primary industries

IOWN, 5G/IoT, AI/Robots

#### **Smart Livestock Farming**

 Operation that combines the livestock farming industry and ICT, etc.

#### **Smart Aquaculture**

- Aquaculture utilizing ICT
- Utilization of genome-editing technologies, etc.

## **3** Achievement of a Circular Economy Society

### iii. Progression towards Net-Zero

■ Looking ahead to FY2040, aiming to expand "NTT Green Innovation toward 2040" to Scope 3

# NTT Green Innovation toward 2040<sup>(1)</sup> 2030

80% Reduction in Greenhouse Gas Emissions (compared to FY2013)

Mobile (NTT DOCOMO)

**Data Centers** 

Carbon-Neutral

2040

**Carbon-Neutral** 

## **Expansion to Scope 3**

Further Strengthening of Collaborations with Suppliers

**Customers' Contributions to Decarbonization** 

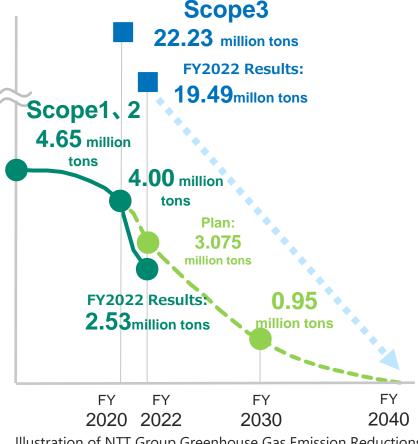

Illustration of NTT Group Greenhouse Gas Emission Reductions (Domestic + Overseas)

(1) GHG Protocol: Scope 1 (our own direct greenhouse gas emissions) and Scope 2 (indirect emissions associated with the purchase of electricity, heat and steam that are provided by other companies)

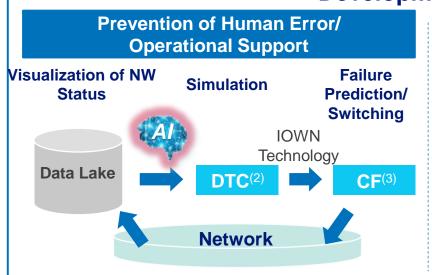

# **4 Further Strengthening of Business Foundations**

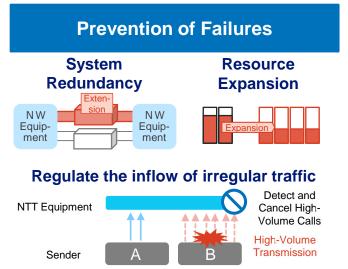

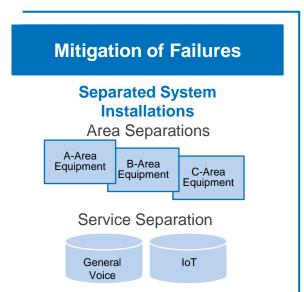

We will make our networks/systems more resilient to withstand large-scale failures, cyberattacks or other occurrences in order to strengthen social infrastructure and enhance our countermeasures against increasingly severe natural disasters

(will make investments of ¥160.0 billion<sup>(1)</sup> by FY2025)

#### **Development of Resilient NW/Systems**

### **Further Strengthening of Disaster Countermeasures**

Proactive response and support leveraging Al and data, etc.	Power supply from EVs and on-site PPAs	
Distribution of supply chain risk, regional distribution of offices, etc.	Strengthening of disaster-specific risk scenarios	

(1) Includes other reliability improvement measures. (2) Digital Twin Computing (3) Cognitive Foundation

#### 2. Upgrading the Customer Experience (CX)

# **5** Fusion of Research and Development with a Market-Focused Strategy

- Will combine and strengthen our R&D capabilities with our market analysis and alliance capabilities at the holding company level
- Will enable us to strengthen our product-oriented R&D to develop products through co-creations on a global scale and promote strategic alliances with a variety of partners

# Establishing a New R&D Organization with Market Analysis, Alliances and Planning Capabilities

#### 2. Upgrading the Customer Experience (CX)

## **6 Strengthening of Services that Emphasize CX**

#### Customers

(Individuals, businesses, local governments, government organizations, etc.)

# **Set/Implement KPIs that Track** the Customer Journey

Each NTT Group Company/
Partners

# Customer Experience First

With a Market-in Approach, Achieve Both Customer Satisfaction and Business Growth at the Same Time Offer New Experiences and Impressions that Exceed Customer Expectations

Each NTT Group Company/
Partners

#### **Further Improve and Update Services by Being Agile**

NTT Holdco Market Planning & Analysis Department → Research and Planning Division/Institute Each NTT Group Company/Partners

#### 3. Improvement of Employee Experience (EX)

## **7**Open and Innovative Corporate Culture

- Foster a culture of **openness**, **collaboration and trial and error** for **a better customer experience**
- Continue to strengthen diversity and inclusion

#### **Openness**

- Open discussions
- Transparency
- Healthy debate
- Psychological safety

#### **Trial & Error**

- Overcome fear of failure and move forward
- Learn from failures by failing small and fast

#### **Collaboration**

- Collaborate globally
- Value differences

diversity and inclusion

Shared Values
Connect Trust Integrity

#### 3. Improvement of Employee Experience (EX)

■ Support employee career growth and increase investment in human capital to drive business growth

**Developing Diverse Work Styles and Work Environments** 

#### 3. Improvement of Employee Experience (EX)

■ Expand the benefits that support a portion of educational expenses for children of deceased employees until they reach age 22

Current		Future
Scheme	Scholarship fund	Expand the current scheme
Eligibility	Japan-based employees	Employees
Benefits	Support a portion of educational expenses until reaching age 22	Consistent with the current benefits
	<ul><li>For children of deceased employees</li><li>In place since 1988</li></ul>	Details to be considered based on local laws and trends

#### **Medium-Term Financial Targets**

Targets	Indicators	Target Levels (FY2027)	
Company-Wide Targets	EBITDA	+20% increase (compared to FY2022)	
Growth	EBITDA	+40% increase (compared to FY2022)	
Areas <sup>(1)</sup>	Overseas Operating Income Margin <sup>(2)</sup>	10% (FY2025)	
Existing	EBITDA	+10% increase (compared to FY2022)	
Areas <sup>(3)</sup>	ROIC	9% (FY2022 Results: 8.2%)	

In addition to the above, we are setting sustainability-related targets:

- New Female Manager Promotion Rate: at least 30% each year
- Greenhouse Gas Emissions: targeting carbon neutrality in 2040, as well as Net-Zero
- Engagement Rate: To be improved

<sup>(1)</sup> IOWN, digital/data centers, power/energy, Smart Life, real estate, Al/robots, etc.

<sup>(2)</sup> NTT DATA consolidated. Excludes temporary expenses, such as M&A-related depreciation costs of intangible fixed assets.

<sup>(3)</sup> NTT DOCOMO's consumer telecommunications businesses, NTT East and NTT West

# **Strengthening Our Ability to Generate Cash for Growth**

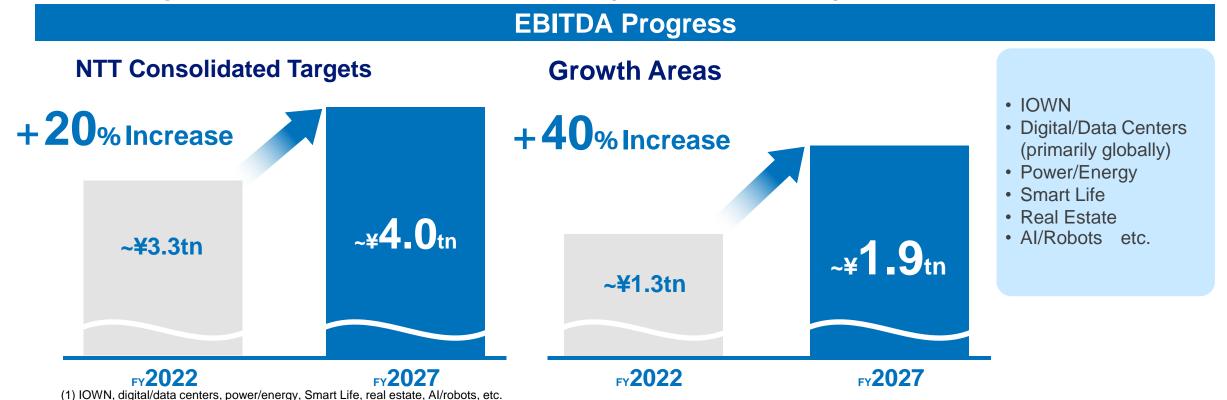

#### (with EBITDA as a Key Indicator)

■ We will strengthen initiatives focused on our cash generation abilities to achieve further sustainable growth and have set EBITDA as a key indicator, aiming for an increase of 20% to reach ¥4.0 trillion by FY2027

(We will continue to **balance sustainable growth and shareholder returns**, and are aiming for **EPS** to grow **consistently with previous levels**)

■ In the growth areas<sup>(1)</sup> that will be drivers of that growth, we are aiming for an EBITDA increase of 40%

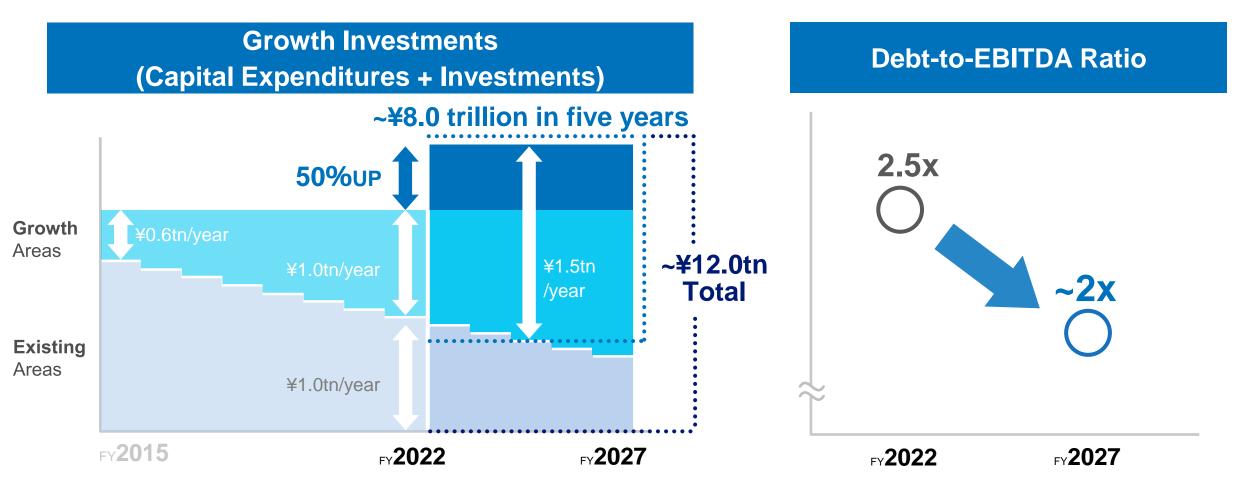

114

#### **Increase Investments to Achieve Further Growth**

- We will make investments/contributions to our growth areas<sup>(1)</sup> amounting to ~¥8.0 trillion in the next five years(2) (an increase of 50% over current levels), and plan for a total of ~\frac{1}{2}.0 trillion
- Maintain/reduce our debt-to-EBITDA ratio to ~2x

(1) IOWN, digital/data centers, power/energy, Smart Life, real estate, Al/robots, etc. (2) From FY2023 – FY2027.

#### **Fundamental Policy on Shareholder Returns**

# **Dividend Policy**

Our basic policy is to implement steady increases in dividends

# **Share Buybacks**

We will flexibly conduct share buybacks to improve capital efficiency

# **Transaction to Make** NTT DATA Group a Wholly Owned Subsidiary

May 8, 2025

# **Strategic Direction of NTT Group**

◆ NTT Group Medium-Term Management Strategy (announced May 2023)

**Fundamental Principles** 

Innovating a Sustainable Future for People and Planet

#### **Pillars of Our Initiatives**

- 1. NTT as a Creator of New Value and Accelerator of a Global Sustainable Society
- Strengthening the use of DX/data in society and industry
- Expansion and upgrade of data center infrastructure, etc.
- 2. Upgrading the Customer Experience (CX)
- 3. Improving the Employee Experience (EX)

Position NTT DATA Group's businesses as a key driver for the growth of NTT Group and pursue more agile growth investments to strengthen the business portfolio

# Objectives of Transaction to Make NTT DATA Group a Wholly Owned Subsidiary

- Challenges arising from the current capital relationship between NTT and NTT DATA Group
- (1) Conflicts of interest associated with the dual listing
- (2) Complex decision-making processes
- (3) Accountability to shareholders of both companies regarding the investment of resources

Overcome challenges by making NTT DATA Group a wholly owned subsidiary

# **Objectives of Transaction to Make** NTT DATA Group a Wholly Owned Subsidiary

- Objectives of Transaction to Make NTT DATA Group a Wholly Owned **Subsidiary**
- ✓ By unifying decision-making processes, a structure will be established where NTT DATA Group plays a central role in NTT Group's global solutions business

By making agile growth investments in response to rapid environmental changes, the growth of NTT DATA Group will accelerate the growth of NTT Group as a whole

# **Key Initiatives 1/3**

#### (1) Enhancement of the global solutions business portfolio

- **Enhance growth investments by leveraging NTT Group's cash flow and financing** capabilities
  - Strengthen presence in markets like North American, which has the highest demand worldwide and continues to produce the cutting-edge technologies
  - **Expand Al-enabled services, which are expected to experience rapid market** expansion
  - Advance digital engineering, which is anticipated to see significant growth and global expansion
  - **Expand and upgrade data center infrastructure in response to the increasing** demand for Al

# **Key Initiatives 2/3**

#### (2) Enhancement of coordination of resources/capabilities of both groups

- ✓ Corporate Sales:
  - Strengthen cooperation between NTT DATA Group and NTT Group companies
  - Strengthen and expand sales of integrated solutions for large corporations by combining customer bases and offerings
  - Strengthen sales to municipalities and small and medium-sized companies by leveraging the software assets developed by NTT DATA Group
- √ R&D:

Upgrade data center infrastructure by leveraging IOWN, etc. and implement AI in real-world by utilizing tsuzumi

# **Key Initiatives 3/3**

- (3) Facilitation of rapid decision-making and improving cost-competitiveness and customer/employee experience
  - Facilitate rapid decision-making and optimize resources and assets by simplifying governance and consolidating overlapping functions
  - Promote cross-group DX of shared internal operations in the areas of software development and corporate sales by maximizing the use of Al

- Enhance the customer experience (CX) through continuous service improvement, etc.
- Improve cost efficiency and the employee experience (EX) by streamlining operations

# Overview of Transaction to Make NTT DATA Group a Wholly Owned Subsidiary

Implement the Tender Offer for Shares of NTT DATA Group

Tender Offer Period	May 9 (Friday) – June 19 (Thursday)
Tender Offer Price	JPY 4,000 per share
Shares to be Purchased	592,810,968 shares

➢ If NTT is not able to acquire all of NTT DATA Group's shares (excluding shares owened by NTT and NTT DATA Group) through the Tender Offer, NTT will conduct procedures to make NTT DATA Group a wholly owned subsidiary.

# Financing and Financial Policy

## **Financing**

- The Tender Offer will be financed through bridge loans from five Japanese financial institutions
- The bridge loans are planned to eventually be replaced with long-term financing

## **Financial Policy**

- Continue to make growth investments and return profits to shareholders while maintaining financial soundness
- Aim to return to the pre-Tender Offer financial position in the medium term (effect of investments in growth areas, improved profitability in existing areas, and realization of synergies through the Transaction)

# **Initiatives for Synergy Creation**

- NTT DATA Group and NTT Group companies will engage in discussions to strengthen collaboration and optimize overlapping functions
- ◆ Topics and Relevant Group Companies (Examples)
- **Corporate Sales** 
  - Optimization of sales to large corporations: NTT Communications
  - AI technology: NTT TechnoCross
  - Upgrading BPO business with IT services: **NTT Marketing Act ProCX, NTT Nexia**
- √ R&D
  - Enhancing added value in data centers and accelerating the real-world implementation of AI using R&D results: NTT R&D
- The relevant companies will establish up a framework to consider specific initiatives, the target structure, and the scuedule, etc.

# Innovating a Sustainable Future for People and Planet
