

Financial Results for the Three Months Ended June 30, 2025

August 6, 2025

This document is a translation of the Japanese original. The Japanese original is authoritative.

The forward-looking statements and projected figures concerning the future performance of NTT and its subsidiaries and affiliates contained or referred to herein are based on a series of assumptions, projections, estimates, judgments and beliefs of the management of NTT in light of information currently available to it regarding NTT and its subsidiaries and affiliates, the economy and telecommunications industry in Japan and overseas, and other factors. These projections and estimates may be affected by the future business operations of NTT and its subsidiaries and affiliates, the state of the economy in Japan and abroad, possible fluctuations in the securities markets, the pricing of services, the effects of competition, the performance of new products, services and new businesses, changes to laws and regulations affecting the telecommunications industry in Japan and elsewhere, other changes in circumstances that could cause actual results to differ materially from the forecasts contained or referred to herein, as well as other risks included in NTT's most recent Annual Securities Report and in any other materials publicly disclosed by NTT on its website.

- * "E" in this material represents that the figure is a plan or projection for operation.
- ** "FY" in this material indicates the fiscal year ending March 31 of the succeeding year.

Topics

1 Upgraded purely Japanese-made LLM [tsuzumi 2]

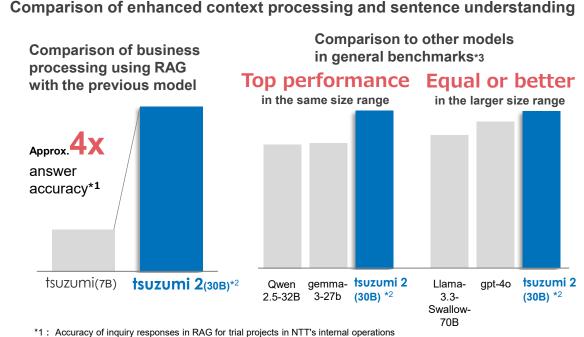

- An upgraded version of tsuzumi, NTT's LLM, to be launched in October 2025
- The best in the world among LLMs with the same parameter size in terms of Japanese language performance

Evolved understanding of complex context and meaning meeting the needs of enterprise customers

Well-balanced single-GPU model with significant performance improvements and cost efficiency

Purely Japanese-made model developed from scratch by NTT supporting highly confidential data

*2: Performance evaluation during development

2 "NTT DC REIT" listed on the Singapore Exchange

- NTT DC REIT, a real estate investment trust managed by NTT DC REIT Manager, a consolidated subsidiary of the NTT DATA Group, has been listed on the Singapore Exchange on July 14, 2025.
- Through the transfer of six data center (DC) assets to the REIT (total amount of 229.5 billion yen*), NTT Group aims to accelerate the recovery cycle of DC investments, generate investment funds and maintain financial soundness while further growing the DC business and maximizing corporate value.

*1,500 million US dollars (calculated at 1 dollar = 153 yen)

Six data centers that have been transferred to NTT DC REIT (Total IT Load capacity: approx. 90MW)

SG1 (Singapore)

Utilization of IOWN Optical Computing* at the NTT Pavilion

4 Announcement of Policy for Future Fixed-line Telephone Service (Transition from Copper to Fiber and Wireless-based Fixed-line Telephone)

- Given the deterioration of NTT East and West's Copper-based telecommunication facilities and the decline in cost efficiency in the future, NTT East and West plan to gradually transition to fiber-optic and wireless-based fixed-line services by 2035, ensuring the continuity of fixed-line telephone services.
- To avoid causing inconvenience to existing customers, we will provide sufficient notice and transition periods before switching to alternative services, and NTT East and West plan to announce basic policies and related information around late September.

< Details to be announced in late September >

- Approach and Schedule for Transition from Copper to Fiber and Wireless-based Fixed-line Telephones
- Efforts to Protect Consumers and Ensure Smooth Transition, and related measures
