'Sustainability is in our DNA.'

Making a difference through

Global Volunteer Week

Chennai, India

2. **Video: 3 M 6 Sec**

Hello this is Gopa Kumar.

Good morning, good afternoon, good evening, everybody.

I'm based out of Chennai supporting BPO operations.

Wanted to give you little more background about our Chennai operations.

We got 3000 plus people on BPO and about 1000 plus people on the application services.

Chennai, as a location has done a fabulous job in the last couple of years when it comes to sustainability.

And these projects or activities would include coastal cleanup, water restoration, supporting education, flood relief to the needy people. Like, for example, what happened in Chennai in 2015 and even in the last year, 2023 December. As part of sustainability this year we wanted to highlight the exemplary work we have done throughout the global volunteering week with the support of our employees and leadership team.

The activities would include cleanup of water bodies, removing around 1900 kilograms of waste.

School kit distribution in multiple schools impacting around 1000 plus children and grocery distribution that have supported 300 needy families. Overall, the team achieved over 5500 volunteering hours and a reduction of about 5400 kilograms of CO_2 equivalent.

Over the years I have had the honor and privilege to lead the CSR efforts and I can say with conviction that these efforts not only have a lasting footprint of NTT DATA on the social and environmental landscape, but also leads to deep fulfillment of the present and instills hope for the future.

These are important tenants in making us better humans.

And protecting our planet.

'Sustainability is in our DNA.'

And we will continue our best efforts in the coming years as well

I wanted to take this opportunity to thank the NTT leadership team for their outstanding focus and continued focus on corporate social responsibility and sustainability.

I think it's a great teamwork and thanks everybody for all the great support from everyone.

Thank you so much.

Supporting home for the needy

Grocery supplied for six months.

10. **Pictures Grocery Distribution: 10 Sec**

"My heartfelt thanks to the team from NTTDATA for providing food on priority by collaborating with their leadership. They mentioned that all other things can be taken care of, but food needs to be prioritized and provided on time. Providing food supplies and medicines for Six months is no small effort. "– Administrator, Kaikudopam Charitable Trust.

Education enablement for underprivileged students

12. **RANBC School Head Mistress Feedback: 10 Sec**

Head Mistress Higher Secondary School: ""Thank you NTTDATA for providing us computers, laptops, and a smart class with projector. It is a blessing as we are now able to teach children computer science from 6th which used to be only from 11th. It is also very useful for Science, Math, Commerce and Accounting subjects. Our intake has also increased because of these facilities."

Head Mistress Primary School: "Children find it easier to learn from videos. It has been very beneficial for students from 1st to 12th class. "

Head Mistress Nursery School: "For the students of 1st to 5th we use the computers for students to learn rhymes and stories and for practical exercises."

13. Government Higher Secondary School: 5 Sec

Ms. Murumathi, Science Teacher, Government Higher Secondary School, Avadi, Chennai: "NTTDATA has been sponsoring our school for over 5 years. We are thankful as they have provided our school with:

20 computers, modernized our kitchen facilities for mid-day meals, lunchroom for the children, volunteers to teach computer science to our higher secondary students and planted numerous trees in the campus which is very useful for students and teachers."

Mr. Kalaiaperumal, Headmaster, Government Higher Secondary School, Avadi, Chennai: "Very satisfied and happy about the sponsorship we are receiving from NTTDATA towards our school."
